The following communication was read for the information of the Senate:

Atlanta, Ga., June 28th, 1920.

Hon. Sam L. Olive, President of the Senate,

State Capitol, Atlanta, Ga.

My dear Mr. President:

I wish to extend to you, and through you to every member of the Senate, an earnest and cordial invitation to be at the Auditorium in the City of

Atlanta at 8 o'clock P. M., on Thursday, July 1st, 1920.

At that time and place a mass meeting will be held, with delegations and speakers from various sections of the State to discuss and protest against the merciless treatment thousands of tenants are suffering, and will continue to suffer at the hands of a large number of heartless, oppressive and profiteering landlords and their agents, who are charging and demanding unreasonable, unjust and outrageously high rentals for homes. Thousands of patriotic citizens will attend this meeting to register their protest against such conduct. Many illustrations will be given showing how little some of these landlords value the houses they have for rent when they give them in for taxes, and what an enormous value they place upon this same property when offered for rent, knowing full well that the tenant has to pay it or be without a home. This doesn't apply to all landlords but does apply to a large number of them.

We want you, and the distinguished body of Georgians over whom you have the honor to preside, to be present and get this information first-hand. By honoring this occasion with your presence, I am certain that you will be convinced that there is a necessity for the immediate enactment of legislation to protect the oppressed tenant, and at the same time allow the landlord a fair and reasonable income on his investment in home renting property.

The State of New York, and other States, have recently passed such legislation. The time is ripe, and there is an urgent demand and necessity, for such

legislation in Georgia. Thousands of patriotic Georgians will attend this meeting. I again appeal to you to honor this occasion with your presence.

Respectfully

JNO. A. MANGET,

Georgia Fair Price Commissioner

STATE BUDGET AND INVESTIGATING
COMMISSION.

June 28, 1920.

DEAR SIR:

We have the honor to transmit, through you, to the General Assembly, this report of the State Budget and Investigating Commission.

Very truly yours,

HUGH M. DORSEY,

Governor and Chairman.

R. A. DENNY,

Attorney General.

Committee of the House.

STATE OF GEORGIA,
EXECUTIVE DEPARTMENT.

June 28, 1920.

To the General Assembly of Georgia:

In accordance with the provisions of House Bill No. 327, as shown on page 155, of the Georgia Laws of 1918, the Commission appointed to examine the State appropriations and to make recommendation to the Legislature in reference thereto, has held meetings at various times since the last session of your Honorable Body. The members, composed of the Governor, the Attorney General, the State School Commissioner, the Chairman of the Appropriations Committee of the Senate and the Chairman of the Appropriations Committee of the House, submit the following report:

GENERAL APPROPRIATION BILL.

Section 3 of the Law makes it the duty of the Commission to examine into the appropriations of previous Legislatures, the necessity for the same and to prepare for the General Assembly the General Appropriation Bill. This was done at your previous session last summer and the unusual system and accurate classification presented attracted favorable comment from the House and Senate and the press and people generally. It was the nearest approach to a carefully planned budget that the State has ever had and we hope that it will lead to the complete establishment of the Budget System

with a State Auditor for this commonwealth. It enabled the House of Representatives to pass the Appropriations Bill at an earlier date and to transmit it to the Senate with more thorough knowledge of the facts and with more certainty and accuracy as to the funds required than ever before. If this same good fortune had attended the Bill in the Senate and throughout the closing days of the session, the finances of the State would be in much better condition today.

FINANCIAL SITUATION.

The opening of the Legislative session of 1920 finds the State Treasury without funds. The Governor has exhausted his borrowing limit of half a million dollars. On the date this report is written there is in the Treasury cash to the amount of \$29,485.17. Warrants have been presented to the Treasurer for payment to the amount of \$129,566.07. These are the more pressing of the bills due; in addition, warrants have been requested for nearly this much more and represent debts due in accordance with appropriations made by the General Assembly last year. It is not entirely just, however, to state that the large appropriations made in 1919 form the sole cause of our financial troubles. A more correct statement would be to say that they are the result of our system which collects the major part of our taxes late in the fall of the year to pay for the expenses of departments and institutions which necessarily begin on January first. It is true, however, that we are farther behind than usual owing to the fact that appropriations have exceeded the estimate of income for several years past.

OIL INSPECTION FEES.

The possibility of more financial trouble has recently arisen in legal proceedings by the Texas Oil Company to prevent the collecting of inspection fees. These in amount were nearly four hundred thousand dollars last year and, of course, if the State should lose the suit would cause a lessening of our annual income by that amount.

RECOMMENDATIONS.

These facts and the worthy appeals to be shown in detail later, coming with justice from the State's institutions show the necessity for prompt action on the part of the General Assembly to meet the financial situation. The suggestion has been made that the remedy could be found by removing the limit of five mills on the rate of taxation. There would, undoubtedly, be help in this by reason of the fact that the members of the Legislature would be cautious about voting appropriations that would require a levy of six or seven mills instead of five. We believe, however, that this is unnecessary and that the end desired could be secured, and with impartial justice to all, by changes in our tax system to reach intangible or hidden property

UNTAXED RESOURCES.

According to the tax digests, only sixty-six million dollars were given in for taxation last year in the shape of funds on deposit by the people of Georgia. More than this amount, according to newspaper reports, were to be found in Atlanta alone on one day of last year and it is safe to assume that over

four hundred million dollars were in existence in the entire State. The State should legally and properly be just as much entitled to revenue from this source as from the tax payers' farm or home. In this respect, therefore, Georgia might perhaps claim equal credit with the Tax Commissioners of Mississippi who reported the system of that State as almost ideal for the evasion of taxes. From this source alone, therefore, we could secure nearly half as much resources as are now derived from our ad valorem taxes.

TEMPORARY AID FROM THE HIGHWAY FUND.

To date from automobile taxes, highway fund, the State has collected \$1,798,039.56. Since the beginning of its operations the State Highway Commission has used \$199,247.83. This money is paid into the Treasury at the very time in the spring of the year when it is depleted after payment of pensions to Confederate Veterans. It does not seem businesslike for the State to borrow funds, or to be unable to pay its just debts, when it has on hand a large amount of money waiting until it is needed by the Highway Commission. The recommendation is made, therefore, that measures be introduced allowing the use temporarily of this money until needed for the purpose for which it was secured. We recommend legislation, therefore, authorizing the employment of the highway funds each year for the general business of the State until they are needed by that department.

DEPARTMENTS AND INSTITUTIONS.

The Department of Public Printing needs your attention at this session. It was created last year and yet no provision was made for the salary of Superintendent or office help. Mr. C. M. Methvin was appointed and served until May 10th, with ability and credit to himself and the State. On receipt of his resignation, Mr. P. T. McCutcheon was appointed by the Governor to succeed him and has attended to the duties of his office with efficiency, in spite of the conflicts caused by different rulings as to the law concerning the duties and responsibilities of the department. We recommend, therefore, that suitable salary and maintenance fund for the Superintendent of Public Printing be provided, and the enactment of laws that will enable the department to function without friction.

RAILROAD COMMISSION.

Salaries of the Railroad Commissioners were increased by law at the last session and no legal provision was made for paying these increases. We recommend, therefore, that legislation be provided by the General Assembly at this session.

GEORGIA LIBRARY COMMISSION.

The State Library Commission was created to encourage the creation of libraries throughout the State and to maintain traveling libraries where needed. There are only twenty-eight in Georgia supported by public funds, though there are several other libraries established by clubs or associations. We commend the purpose and work of this Commis-

sion and hope it will be extended until there is a county library in every county in Georgia. We recommend that a State Censor or Board be created and given the right to censor and supervise the motion pictures shown in this State. We believe that the fees received would be sufficient, after paying the expenses of the Commission, to provide funds for the promotion of the work of the Georgia Library Commission, as well as to give needed protection to the youth of the State with regard to the kind and character of motion pictures presented.

NOTARY PUBLIC FEES.

The State Librarian, Mrs. Maud B. Cobb, reports \$209.00 deposited in the State Treasury from State at Large certifications. During 1919 the Librarian issued commissions to 762 individuals as Notaries Public. The fees received in accordance with Section 3 of the law as found on page 137 of the Acts of 1916, were in amount \$1,524.00. This, under the Act, is applied as a supplement to the salary of the State Librarian. This with the regular salary of the office is not too much to be paid to the excellent official at present holding this position. The Commission does believe, however, that it is wrong in principle for the salary of a public office to be dependent upon the fluctuations of fees paid in this way. Furthermore, it is easily seen that with the possible increase in number from year to year in time the salary would be out of proportion to the work required or to that received by other officials. Consequently, we recommend the substitution of salary for fee paid in whole or part as salary for this and all public offices of the State.

GEOLOGICAL DEPARTMENT.

The salaries for the State Geologist and his assistant were fixed years ago and it is now quite impossible to secure the trained help needed in this department for the former sums paid. These amounts should be revised and increased.

PUBLIC WELFARE BOARD.

The Public Welfare Board was created last year and an appropriation of \$15,000 was made in order that it might investigate and supervise the management of orphanages, asylums and other public institutions into which abuses have gained admittance. A notable instance was that shown in the public press as having been maintained for some years in Cobb County. We have examined the work of this new Commission and find its officers diligently engaged in the performance of their duties. They have undoubtedly rendered good service to the State and desire increased maintenance fund. We would recommend favorable action if we felt that the condition of the Treasury justified this.

DEPARTMENT OF EDUCATION.

We regard it as most fortunate that the Common School appropriation has been definitely settled at 50% of the State's income. As Georgia increases in wealth this amount will become larger each year and this affords a firm and fixed basis for the training of our youth in the elementary grades. The Constitution has been amended until the authority for State maintenance of high school is practically settled and will be assured beyond question after the passage of

an amendment which is before the General Assembly at this session. The Commission is inclined to believe that it would be just as wise for the Legislature to fix a definite percentage of its income for the maintenance of all its eleemosynary, educational, corrective and charitable work as for the public schools.

We call the attention of the General Assembly to the passage of an Act by Congress which was approved by the President June 5th, 1920, providing for the Vocational Rehabilitation of persons disabled in industry. This Federal law provides a sum of money for each State to be expended under the direction of the Vocational Board of the State. The Legislature, however, must pass an Act accepting the fund providing that the State Treasurer shall be its custodian and meet the amount appropriated by Congress dollar for dollar in order to receive the aid. Other countries as well as this are providing means in order to train to be self-supporting those persons who are injured so that they are unable to make a living and we recommend, of course, that you pass the Act required by the Federal Government and shall prepare a Bill to present to you for this purpose.

It is neither right nor just to refuse aid for the proper training of our negro population and we recommend the establishment of an additional A. and M. Agricultural High School for colored youth to be located near the center of the State

APPROPRIATIONS.

In conclusion we submit two statistical tables

marked "A" and "B." The first gives the amount of the appropriations to each of the State's departments and institutions for the year 1920 in the first column; in the second you will find the amount paid to date; in the third there is shown the balance to be paid as soon as the condition of the Treasury will permit. Table "B" will show you the present appropriations received by the State's departments and institutions and the amounts asked for. Beside those which you have been supporting Bowden appears for the first time with the request that you support that school as a college or normal school and provide \$50,000 for a building and \$20,000 for maintenance fund. Of course, if the State had sufficient funds, it would be helpful to have a new institution in that section of Georgia. Necessity demands that you make increased appropriations to some of our present institutions. With the higher prices demanded for labor and supplies of all kinds it is absolutely impossible, for instance, for the State Sanitarium to carry on its work without large increase to its maintenance funds. The same thing is true with regard to the University and its various branches. Our youth are aroused as never before to the necessity for an education and the State cannot lag behind in the provision for this need. New buildings must be provided and the diminished value of the dollar must be made good in the salaries of the instructors. The School of Technology is crowded to its doors, the South Georgia Normal at Valdosta finds itself unable to complete its new building at the previous estimate, the G. N. & I. C., at Milledgeville, is filled to its doors, the N. G. & A. C., at Dah-

lonaga, wishes additional help, and the parent institution at Athens, with no dormitories built for years, is especially insistent that one be provided for the young women.

Among these worthy claimants to which we call your attention for needs that are proper and, in many cases, necessitous, should be mentioned our Training School for Girls and the Industrial School for Boys. The Committee has been impressed by the improvement and good work done at these two institutions and recommends additional help and facilities which can be secured only through increased maintenance and support.

By Mr. Pittman—

A resolution extending the privileges of the floor to Mrs. W H. Felton for a period of two days.

The following message, received from His Excellency, the Governor, was read :

STATE OF GEORGIA,

EXECUTIVE DEPARTMENT.

Atlanta, June 6, 1920.

To the General Assembly of Georgia :

FINANCES.

For more than sixty days prior to your convening, the treasury of the State has been unable to

honor requisitions of those authorized to draw appropriations made by your honorable body at the 1919 session, for the conduct of the State's business and the support of its institutions. Our educational institutions—the university; the several agricultural schools, and its other branches; our educational and eleemosynary institutions—the Academy for the Blind, the School for the Deaf; our educational and corrective institutions—the Training School for Girls; the Training School for Boys, our Soldiers Home, our State Board of Health, to which appropriations for the Tuberculosis Hospital is made, our Sanitarium for the Insane, our Prison Commission, our Department of Agriculture, and other departments at the Capitol—these and others have been forced to go without funds, which are necessary if these institutions are to continue functioning.

Those familiar with the finances of the State have anticipated that this condition which now confronts us was ultimately inevitable—the only element of uncertainty being the date of culmination. Except for your prompt compliance with my request, at your 1919 session, to defer the distribution of the State Road Funds to the counties until September 10th of that year, it is probable that the embarrassment which is now existent would then have arisen. (Georgia Law, page 1440, Resolution No. 16.)

The situation as it has been developing, and as it was at the beginning of this year, can readily be seen from this statement:

	“Undrawn balance” or appropriations for previous year unpaid on Jan. 1 of each yr.	Balance in Treasury to help pay “undrawn balance.”	Deficit, or amount not on hand necessary to complete payment of “undrawn balance.”
Jan. 1, 1913-----	\$2,092,794.79	\$1,113,517.31	\$ 979,277.48
Jan. 1, 1914-----	1,607,431.30	739,625.75	867,805.64
Jan. 1, 1915-----	1,901,702.07	787,455.88	1,114,246.19
Jan. 1, 1916-----	2,259,361.73	842,799.09	1,414,562.42
Jan. 1, 1917-----	2,627,641.43	1,386,135.42	1,241,496.01
Jan. 1, 1918-----	2,812,640.43	1,459,331.18	1,353,309.25
Jan. 1, 1919-----	2,926,671.06	813,139.66	2,113,531.40
Jan. 1, 1920-----	2,997,368.91	909,625.64	2,087,743.27

The State, it is seen, therefore, began the year 1920 in need of \$2,087,743.27 with which to balance its account.

In addition to the ordinary expenses of our civil establishment and the usual maintenance expenses of our institutions, there were two obligations—one created by contract under the School Warrant Law of 1915; the other, the payment of pensions due our Confederate Veterans, which the State had to meet during the first of the year. These two items are the largest in the State's budget, and for some years—although the treasury funds have been supplemented by temporary loans—which the Governor is authorized to make—their prompt payment has not been met without some apprehension of a possible failure.

A detailed statement of the plan of payments for this year may be profitably set forth:

Although under the law pensions to Confederate Veterans are not necessarily payable until May 1st each year, still it has been found advisable to pay as soon after the beginning of the year as possible the pensioners in one-half of the counties—those given priority one year being postponed the next—and this has been the unbroken custom since the law allowing annual payments to pensioners was enacted.

On February 10, 1920, therefore, a warrant for \$632,820.00 was paid by the Treasurer for one half of the pensions for 1920. This payment was made without securing a loan.

On March 1, 1920, a warrant for \$1,979,617 75 was paid to redeem discounted school warrants issued to finance the public schools during 1919, and in anticipation of the taxes for that year. It was necessary to use the Governor's borrowing power up to \$150,000.00 in order to meet this obligation. This loan was paid March 23, 1920.

On April 21, 1920—some few days earlier than commanded by law—a warrant for \$627,775.00 was drawn on the Treasurer for the second installment of pensions for 1920. But to make this payment it was necessary to again use the borrowing power of the Governor—and perhaps for the first time in the history of the State for the full amount authorized, viz: \$500,000.00—certainly for the first time since the limit has been increased to the present sum.

The loan of \$500,000.00, while obtained of the Highway Funds, exhausts the borrowing power of the Governor; as this fund, though heretofore avail-

able temporarily for general purposes until its distribution to the counties (which ordinarily is done annually about the first of June), under the terms of the re-organization statute passed at your last session, is now controlled and disbursed under the provisions of that Act only, and hence must necessarily be kept separate and apart from other funds and held until the occasion arises for its use in carrying out the road building program.

Although the revenues of the State have undoubtedly substantially increased from year to year, and though probably the increases for 1919 and 1920 will fully equal those of other years,—still the greatly increased appropriations to almost every department and institution,—and especially the large increases to pensioners and the public schools; the withdrawal of funds heretofore temporarily employed to tide the State over “the lean” months, coupled with the depreciated purchasing power of the dollar and the unusual “high cost of living”—which has necessitated larger drafts, or more frequent calls, than heretofore have been made during the first half of our fiscal year—have at last necessitated the suspension of payments on appropriations, because the State neither has the money that can be used, nor the power to borrow more.

Only a small per cent, or about 13.17 per cent, of 1920's anticipated revenues have been paid thus far. The greatest portion of the 86.27 per cent remaining will not be collected until toward the close of the year; but, in the meantime, half of the fiscal year has already passed, and within that period the necessities of the departments and institutions, as might

reasonably be expected, have demanded such a proportion of appropriations as exceed the revenues realized.

The appropriations already made for 1921 exceed those for the current year by about \$700,000.00 and the indications now are that probably earlier next year than this the treasury will again be empty and those who have been so greatly inconvenienced this spring must again suffer.

Teachers, the employees of the Sanitarium for the Insane, and others employed at the various institutions of the State—most of whom realize little enough for their labors—should neither be denied prompt payment of their meager stipends, nor made apprehensive and uncertain as to their livelihood.

And above all, the State should consider its helpless wards—the mentally sick—the infirm confined in our State institutions—and should not deny them the use of money which otherwise would lie idle in our State depositories.

Therefore, I unhesitatingly suggest legislation permitting the use, temporarily, of such portions of the highway funds as may be needed; provided, of course, that such use shall not interfere, hinder, or delay in any respect the State's road building program.

This, so far as I am able to see, is the only way by which immediate relief can be assured. Under no circumstances should these funds be diverted from the purpose for which they were originally intended, and their use should be permitted only for

such period as is absolutely necessary and to such an amount as can be certainly repaid out of the bulk of the State's revenues which will be collected in the fall.

There is little reason in holding this highway money idle in banks when the State's institutions need it and its agents and employees are forced to go without pay unless they borrow money of these same banks and at a very high rate as compared with what the banks pay the State for its use, or unless the officials of the departments or institutions they serve voluntarily and personally do so for them.

There are two ways, and only two, whereby, in my opinion, the State can insure against a similar situation in 1921. One is to permit the use of highway funds; the other is to increase the borrowing power of the Governor.

Prior to 1912, the Governor was authorized to borrow \$200,000.00. A Constitutional Amendment passed that year increased the borrowing power to \$500,000.00.

Appropriations for 1912, when the borrowing power was \$200,000.00, were \$5,625,825.00. The borrowing power, therefore, was approximately 3.55 per cent of the appropriations.

The 1913 appropriations were \$5,904,567.00, and the borrowing power of the Governor for that year was \$500,000.00, or 8.46 per cent of the appropriations.

The borrowing power of the Governor now is only 5.41 per cent of the 1920 appropriations.

It might be advisable to amend the Constitution authorizing the Governor to borrow not more than 10 per cent of the appropriations made by the General Assembly for the fiscal year in which the loan is negotiated; or, if not that, then to increase the borrowing power to three-quarters of a million, or a million dollars.

The adoption of the foregoing suggestions, in all probability, would serve temporarily—and certainly if the increase in revenues for 1920 as suggested by the Comptroller-General should be realized, and provided no other appropriations are made.

TAXATION

But the State is greatly in need of revenue beyond any increase that can be expected by the most sanguine adherents of the present plan of taxation.

The Comptroller-General, in his report for the year ending December 31, 1919, on page 12, lists appropriations for 1920 at a total of \$9,074,616.50. The correct total is probably more, or \$9,083,586.72.

This official also, in the same report, on page 13, expresses the hope that the net revenues for 1920 will be increased to \$1,092,750.00, basing his expectations on the hoped for increase of assessed valuations of the State for this year as given by the Tax Commissioner, though the Comptroller accredits that official with expressing the hope that the values will increase ten million more than the Tax Commissioner in his report, at page 9, estimates will be the case.

But, conceding the figures given by the Comptroller-General to be correct, and also the opinion which he expresses that all the 1920 appropriations as made can be paid by revenues to be realized this year, including the approximately \$500,000.00 increase needed to pay pensions to our Confederate Veterans, authorized under an Act passed at your last session, and the more than one million dollars asked by the department and institutions, as set out in the Budget and Investigating Committee's report just filed,—still, even if these items are included and covered in the statement of the Comptroller-General as referred to, Georgia, when you consider its needs, is not receiving adequate revenues, and will not until its tax methods are, in my opinion, "re-created."

I cannot see that there is any just ground for complaint as to appropriations, because I feel that they are all—possibly without a single exception, certainly as to those which are in amount consequential—abundantly deserved and advantageously used. But there must be a change. We cannot continue to increase our appropriations thirty-seven per cent when our revenues only increase twenty-two per cent, as has occurred during the five-year period from 1915 to 1919, inclusive.

The Tax Commission in its report submitted to you at your first session, gives a thorough and exhaustive study of the intricate and complex question of taxation.

Nine out of the ten members of this Commission—one of whom is the Tax Commissioner of the State—concurred in the Majority Report. This re-

port shows that other states have failed also to raise adequate revenues under the ad valorem system of taxation, and because of the impossibility of devising under that system any kind of tax machinery that would succeed in realizing revenues from intangible property.

I have seen no valid objection to the majority plan. The suggestion that its adoption would result in a division of our people into classes, I regard as not based upon facts or reason. Such has not been the case in those progressive states where it has been of force and where, if such a result were possible, sufficient time has intervened since its adoption to have produced this unfortunate result. On the other hand, the uniform ad valorem clause results in an uneven distribution of the burdens of taxation and here and elsewhere has already, if you please, divided people into classes—those who pay and those who evade; those who pay some and those who pay less; those who pay on a fair valuation and those who pay on an inadequate valuation; a class that cannot evade because its property is in the open, and a class that evades and circumvents, and will inevitably, under the law as it now is, continue this practice.

The new law will classify property for the purpose of taxation, and scientifically, according to its nature, its characteristics and its earning capacity.

The present law divides our people into classes fully as much as any new system could possibly do—one of which—the owners of real estate—pay taxes on 35 per cent of the actual value of their property:

while another—some of the public service corporations—pay as low as 22 per cent of the actual value of their holdings—while from the standpoint of relative burden imposed, real estate furnishes 53 per cent of the revenue of the State as against 6 per cent which is furnished by those who pay on money and credits.

At page 495 of the Georgia Senate Journal of 1919, a table will be found showing that the percent-value of property in Georgia has been steadily deage of intangible property to the total assessed creasing, having dropped from $14\frac{1}{2}$ per cent in 1875 to $6\frac{1}{14}$ per cent in 1918—and also that the percentage of personal property to the total assessed value of property has decreased from $42\frac{2}{3}$ per cent in 1875 to $32\frac{2}{5}$ per cent in 1918.

To more clearly indicate the above, the table is herewith set out:

		Assessed value of all property in Georgia.	Assessed value of money and solvent debts.	Percentage of money and solvent debts to total.	Assessed value of per- sonal property.	Percentage of per- sonal property to total.
1875	----	\$261,755,844	\$37,138,943	$14\frac{1}{2}\%$	\$111,056,490	$42\frac{2}{3}\%$

1918	----	1,079,261,333	65,613,596	$6\frac{1}{14}\%$	349,588,021	$32\frac{2}{5}\%$

The report of the Tax Commission says:

“The remarkable situation shown by the above table is not unique for Georgia, but has been found to exist in many other States where the ad valorem general property tax was still used in personal property ”

In the State of New York, as shown by the report of the State Board of Tax Commissioners of that State for 1914, page 49, it appears that the percentage of personal property to total assessment in that State has decreased from 18.9 per cent in 1840 to 10.04 per cent in 1905.

— The Minnesota Tax Commission report for 1910 says:

“Under the existing system, personal property tends to form a constantly decreasing proportion of the total property assessed for taxation. It is generally admitted that under modern conditions, the amount of personal property in existence always equals, and frequently exceeds, the amount of real property. In a State like Massachusetts or New York, some would have it that the amount of personal property is two or three times as much as the amount of real property; whatever the exact proportion may be, it is certain that it cannot be less than, and probably greatly exceeds, the amount of real property. During the Nineteenth Century, it is certain that the increase of personal property was particularly rapid; yet the statistics covering this period show that this class of property has usually offered a decreasing proportion of the total assessments.”

This condition, which seems to exist in all states where the ad valorem plan obtains, inevitably results in placing an increased burden on real estate. That is the situation in Georgia.

It should be borne in mind that the suggestion with reference to the division of our people into classes, as urged by the opponents of this measure, presupposes that the General Assembly of Georgia, to whom would be intrusted the matter of classification, would prostitute their high office to an unfair and indefensible imposition of taxes upon one class at the expense of another. I shall never believe that the General Assembly of Georgia will be composed of a membership which will so far forget its duties to the whole people and lend its vote to any such program.

It should always be kept in mind in the consideration of this proposed change in our tax system that under no circumstances could any burden be imposed upon any property in excess of the five mill limitation prescribed by our Constitution, and which all property now theoretically is supposed to pay

If the people of Georgia are willing that your successors in the positions of trust which you now occupy should use their judgment—after a full investigation as to the advisability of classification—you should be willing to submit to them for ratification the Constitutional Amendment giving them this power; because, after the adoption of this proposed amendment, the same rule of uniform and ad valorem taxation as it now exists, if deemed wise, could be applied.

If the tax machinery adopted in Virginia—as the opponents of this new law have suggested—and not the inherent merits of the new system, are to be credited with the splendid success brought about in that State (in which it took six years to persuade the people that it was wise)—is it not a remarkable coincidence that such success was only accomplished contemporaneously with the adoption of this new principle of taxation? Is it not a noteworthy coincidence that, without an exception, success in raising adequate revenues has accompanied a change from the old ad valorem to the classification system, and that this additional revenue has, in every instance, come chiefly from the classes of property which usually escaped taxation under the ad valorem plan?

Under the law of averages, as shown by the experience of other states, the chances are against Georgia ever being able, under any kind of machinery, to accomplish under the Constitutional provision of 1877, what is being accomplished in the nineteen States referred to on page 30 of the Report of the Tax Commission, and in the States of Montana, New Jersey and Vermont, which were not included in this enumeration.

I cannot believe, in view of the universal failure of the uniform ad valorem principle of taxation, that Georgia can ever do under this principle that which other countries and States of the Union have failed to do, the reason for which failure can be summed up in the statement that it is inherently and fundamentally unfair.

Hon. H. J. Fullbright, in his annual report to the Comptroller-General, on page 4, with reference to this report, says:

“The recommendations contained in the majority report are in keeping with the thought of many of the ablest authorities on the subject of taxation, and in line with the laws of all the more progressive States of the Union. I heartily join in that report, believing that the adoption of the recommendations therein made would greatly improve our tax laws.”

It is agreed, not only by the majority of the Tax Commission, but by the Hon. Seaborn Wright, who alone dissented from the report of the majority, and who filed a minority report which was submitted to your body; and by the Comptroller-General of the State of Georgia, Hon. Wm. A. Wright, that changes should be made in our tax laws.

While the Comptroller-General, in his report for 1919, at page 21, disagrees with the majority report submitted by the Tax Commission, still he says that he has given much thought and study to the legislation proposed by the bill introduced at the last session, and that he is more strongly convinced than ever before that were the machinery recommended by this Commission for the new system applied to the existing system of taxation, it would accomplish better results without the destruction of the system, which, in his opinion, has been successfully in operation since the adoption of the Constitution in 1877

Therefore, I am suggesting that in view of the fact that all who have studied the subject agree that *something* should be done, that you adopt the plan recommended in the report of the majority of the Tax Commission; or that suggested in the Minority Report; or the plan advocated by the Hon. Wm. A.

Wright, Comptroller-General of the State, who has had long experience in the practical administration of the taxing laws of this State.

If it is the policy of the State to continue the old ad valorem system of taxation, amendatory laws to perfect the machinery along the lines indicated in the report of the Minority Committee of the Tax Commission, or as suggested by the Comptroller General, should be immediately adopted.

I strongly advise that something be done—raise the constitutional limit; re-value the property now on the tax books; perfect—if it can be done—the machinery under the Constitution as it now is, or amend—and this I think to be wise—the Constitution, as suggested in the report of the majority of the Tax Commission. You should do something without delay. You are in possession of as much information as any General Assembly can possibly have, and in view of the great needs of the State, and also in view of the fact that all who have given the tax methods of the State any thought, are of the opinion that something should be done, there can be little excuse for your failure to act.

BUDGET COMMISSION.

I unqualifiedly recommend the creation of a Constitutional Budget Commission, and invite your serious consideration to the bill suggested by the Budget and Investigating Commission in its 1919 report, "Exhibit I." This bill provides that after this Commission has devoted the time necessary to an intelligent understanding of the needs of the State's agencies, departments and institutions, and

has recommended an apportionment of the State's revenues for these purposes, while items so recommended may be decreased or omitted under the usual rules of the General Assembly, the amount of no item may be increased except upon a two-thirds vote of the membership of each House of the General Assembly present and voting, provided that such two-thirds shall constitute a majority of such memberships.

This provision is very similar to one in the Constitution of the Confederate States of America.

It is a necessary provision to give the work of this Commission before your body that standing to which it is entitled. This provision is also in the interest of protecting your membership against the solicitations and importunities of those who seek appropriations, and tends to enable such matters to be settled upon merit alone.

This provision is not a limitation on the authority of the General Assembly in the matter of appropriating the State's funds. It is simply a sensible, reasonable and businesslike regulation of the procedure by which appropriations are to be made. It must be recalled that the General Assembly has no unlimited power in this respect, as the Governor, by the exercise of the veto power, can overrule the wishes, with reference to matters of legislation, of any number of Representatives in the Lower House less than 128 and any number of Senators, less than 34, so that under the provision of the Constitutional Amendment providing for the creation of the Budget Commission your body will be placed under no further limitations than now.

Members of your body would have the balance of power on the Commission, while the minimum membership authorized to increase any item recommended, 97 in the House and 27 in the Senate, as now constituted, would suffice.

This provision would give to Georgia one of the essential requisites of a business budget system. It has been written into the laws of other States, and, after trial, has been found satisfactory. It is hoped you can approve this plan for submission to the judgment and wisdom of the people of this State, whose representatives you are, and who can well be trusted to say whether or not this is a wise and expedient regulation to safeguard State expenditures and insure their wise use.

I desire also to endorse that provision of this suggested Constitutional Amendment which requires that no other appropriation bill shall be considered until the General Appropriation Bill has been finally acted upon. During my tenure of office, the General Appropriation Bills have always been deferred and finally put through in the last minutes of the session, and hence have come to the Executive Department for consideration and action only after the adjournment of your body, and when to withhold approval of any item of consequence therein, would necessarily entail upon the taxpayers of the State the expense of an Extraordinary Session. To delay the passage of the General Appropriation Bill until special appropriation bills have all been passed upon, must inevitably result always in the passage of special bills without any regard whatsoever to the State's ability to pay. It is unbusinesslike and unsystematic.

The benefits that will accrue from the adoption of the plan embodied in the Budget Bill submitted, will be so apparent—if it is once put in vogue—as to cause us to wonder that the old plan was ever permitted to exist.

Further, let me commend that provision in the last paragraph of the suggested Budget Bill which says that no special appropriation bill shall be enacted, should the amount therein carried cause the total appropriations for any year or years in which the same is to be paid to exceed the total revenue as estimated in the report of the Budget and Investigating Committee, unless such special appropriation bill shall provide the revenue necessary to pay the appropriation therein. The adoption of this will inevitably result in focusing the mind of the General Assembly on the amount of the State's revenue and the source from which it is derived, instead of permitting it in making appropriations—as has heretofore been the case—to think only of the great needs of the State and its institutions.

If this Budget Bill should be adopted, Georgia would never again be confronted with the situation which met you at the threshold of your deliberations at this session.

HIGHWAYS.

You are to be congratulated on the Highway legislation passed at your last session, and it is earnestly hoped that with such minor amendments as may be suggested by your wisdom and as the operation of the State system which you have inaugurated may have developed are necessary, the pro-

gram as outlined in the report of the Majority Committee, as submitted to you at your last session can be put through.

CONCLUSION.

Your body, at its 1919 session, undoubtedly passed as much progressive legislation as any General Assembly in the history of the State at its first session. Your creation of the State Board of Public Welfare; your establishment of the State Banking Department; the State Printing Department; your revision of the educational laws, and your highway legislation, constitute in themselves a splendid catalogue of accomplishments. If at this session you can succeed in the enactment of proper tax legislation; take the initial step for the establishment of a Constitutional Budget and Investigating Commission; take additional steps as indicated for the establishment of a State System of Highways, you cannot be denied the honor of having enacted more legislation in the interest of the people of our State than any General Assembly heretofore has ever done. It is a great opportunity and one which it is sincerely hoped you will embrace.

STATE OF GEORGIA,

EXECUTIVE DEPARTMENT—ATLANTA.

July 1st, 1920.

1. Letter of the Chairman of the Western and Atlantic Railroad Commission transmitting to the Governor the Annual Report of this Commission

and requesting that said Report be submitted to you.

2. The Fifth Annual Report of the Western and Atlantic Railroad Commission, in which is fully set forth the status of the work of this Commission, as required by the Act creating it, and to which your attention is invited.

Respectfully submitted,

HUGH M. DORSEY,

Governor.

Office of the

WESTERN AND ATLANTIC RAILROAD COMMISSION,

STATE CAPITOL—ATLANTA.

Hon. Hugh M. Dorsey,

Governor, State of Georgia,

Atlanta, Ga.

Sir:

I have the honor to transmit herewith, in behalf of the Western & Atlantic Railroad Commission, its Fifth Annual Report to the General Assembly, as required by law, the same being for the year ending this day

The Commission will thank you to transmit this report to the General Assembly at your early convenience.

Very respectfully,

C. M. CANDLER,

Chairman.

FIFTH ANNUAL REPORT OF THE WESTERN
& ATLANTIC RAILROAD COMMISSION

STATE CAPITOL, ATLANTA, GA.,

June 30th, 1920.

To the General Assembly:

Under the provisions of the Lease Act of 1915, it is made the duty of the Western & Atlantic Railroad Commission to submit annual reports of its work, until it shall have completed its duties under the Act, or shall have been discharged by joint resolution of the General Assembly. Annual reports in accordance with this provision have been submitted, the last being for the year ending June 30th, 1919. This report is for the year ending June 30th, 1920, and with this and the four already submitted, the General Assembly will have complete report of all the work accomplished by the Commission.

The report made to the General Assembly at its 1917 session contained a full history of the negotiations resulting in the execution of a contract with the Nashville, Chattanooga and St. Louis Railway for a new lease of the railroad and properties located at the termini and at intermediate points deemed advisable to be kept as a part of the railroad proper, and a copy of this contract of lease, effective December 27th, 1919, for a term of fifty years.

Pursuant to the terms and provisions of this contract, the road and the properties going therewith were formally received from the Lessee under the 1890 lease contract, and with the exceptions here-

inafter mentioned delivered to the new Lessee, and formal receipt taken therefor, a complete inventory of all property included having been previously made by the Commission and accepted by the Lessee.

There was included in the 1890 lease a lot of old tools, shop materials, office supplies and machinery, valued at the beginning of the lease at \$33,093.60.

Such of the machinery as remained in existence was merely junk, the tools had been worn out and the materials and supplies consumed. The 1917 agreement provided that the value above mentioned, \$33,093.60, should be paid to the State in cash and on December 27th last the agreed payment into the State Treasury was made.

In the old lease there were also included certain old rolling stock and equipment valued by the State at the beginning of the lease at \$361,041.00. Much of this is now antiquated and poorly adapted to present day use. Some of it has entirely disappeared. The 1890 lessee valued all of it at \$260,000. By reference to the 1917 report and the new lease contract printed therewith it will be recalled that this old equipment has been included in the new lease, with the agreement however by the Lessee to account to the State at the end of the new lease, at the full value of the same, as fixed by the State, to-wit, \$361,041.00.

On December 27th, 1919, the Lessee deposited with the State Treasurer \$600,000.00 par value United States registered bonds as security for faithful compliance on its part with the terms of the contract. The State, as you will recall, is the owner of

two parcels of commercial property in Chattanooga, known as the Southern Express Company building and the Eastern Hotel building.

These properties had been included in the 1890 lease along with the railroad properties, perhaps without any material return to the State.

This Commission did not deem them essential or necessary to the railroad properties, and did not include them in the properties leased under the contract, but reserved them for separate disposition, under which their rental value could be obtained.

On November 6th, 1919, a lease contract covering the rental of these two properties to J. B. Pound, of Chattanooga, Tennessee, for a term of fifty years from December 27th, 1919, running concurrently with the lease of the railroad properties, was executed.

A copy of the rental contract is attached to this report as an exhibit, and the Lessee took possession thereunder on December 27th last.

The rental is on an ascending scale and averages \$12,000 net per annum for the entire period of the lease. The Lessee agrees to expend not less than \$35,000 in improvements and to pay all taxes, assessments and governmental charges of every character. United States registered bonds for the amount of annual rental, as security for faithful compliance with the lease contract, have been deposited with the State Treasurer.

LITIGATION

The litigation with the Southern Railway in

reference to use by it of the State's right of way at Dalton and Atlanta, mention of which was made in our last report, is still pending. During the period of Federal possession and control of this road, only terminated March 1st last, it was not deemed wise to press these cases to trial. There is no reason now why early trial should not be pressed.

EXPENSES OF THE COMMISSION.

Attached hereto as an exhibit is a statement of expenditures by the Commission since its last report. There is a balance of the last appropriation made by the General Assembly, undrawn and in the Treasury of \$832.04.

RETURNS UNDER NEW LEASES.

Using actual figures where specified and estimates where the actual are not named, the Commission submits the following as the total minimum net consideration to be received by the State under the leases now in effect for the fifty year term of rental, to-wit:

Road rentals to be paid in cash-----	\$27,000,000.00
Contractural cash minimum to be expended on permanent road improvements-----	3,000,000.00
Cash rental for Southern Express Co. and Eastern Hotel buildings -----	600,000.00
Contractural cash minimum to be expended on permanent improvements on above mentioned buildings	35,000.00
Estimated minimum taxes in Tennessee on the State's properties to be paid by lessees for the term of lease	1,500,000.00
<hr/>	
Total consideration of leases-----	\$32,135,000.00

In addition to the above, we estimate that during the period of the road lease tax accruals in

Georgia on rolling stock and equipment owned by the Lessee, as provided under the terms of the new lease, but not taxed under the old lease expiring on December 27th, last, will aggregate not less than \$500,000.

In this connection it is interesting to refer to the estimated reproduction cost new of the road as of July, 1916, printed in the Commission's 1817 Report, made by its Engineer, J. Houston Johnston.

Including lands this estimate was \$15,508,867

Mr. Johnston valued lands at \$7,187,000. Excluding lands his estimate was \$8,321,867. In this last he included \$260,000 as the value of old rolling stock and equipment included in the old lease. The Bureau of Valuation, Interstate Commerce Commission, has recently submitted its tentative engineering report, in which the estimated reproduction cost new, excluding lands, is placed at \$8,060,372. This estimate includes \$95,705 for the old rolling stock and equipment figured in Mr. Johnston's estimate at \$260,000. Under the terms of the new lease, at the expiration thereof, the Lessee has contracted to account to the State for the sum of \$361,041 as its value.

We think the small difference in the estimates of reproduction cost by the Bureau of Engineering and by Mr. Johnston is greatly to the latter's credit.

Tentative land values by the Valuation Bureau have not yet been given.

Mr. Johnston, representing the Commission, has been keeping informed as to the progress of the work

of valuation by the Interstate Commerce Commission under the Federal Valuation Act. In our opinion provision for his continued employment in this valuation work should be made, directing him to report to the Railroad Commission in the future. As his duties would not be heavy only a moderate compensation and expenses would be necessary.

CONCLUSION AND RECOMMENDATIONS.

Except as to the two litigated encroachments above mentioned, and a few other minor encroachments along the right of way, the work of this Commission seems to have been completed.

After the lease of the road and its properties, now fully completed, the Act of 1915 requires the Railroad Commission to exercise supervision over the properties leased. It appears to us as now wholly unnecessary to continue this Commission in existence for the purpose of looking after the two cases mentioned and the minor encroachments remaining.

We therefore respectfully recommend that the matter of encroachment and the litigation in connection therewith be placed under the future supervision and direction of the Railroad Commission, with instructions to Counsel to the Western & Atlantic Railroad Commission, W. A. Wimbish appointed by the General Assembly to report to the Railroad Commission and act under its directions.

The Commission has accumulated immensely valuable maps, records and data as to the road and its properties, at considerable expense to the State.

These should be carefully preserved.

It is recommended, therefore, that they be placed in the custody and care of the Railroad Commission.

Its duties completed, the Commission earnestly requests the passage of a joint resolution at this session, discharging it from further responsibility and duties under the Lease Act of 1915 creating it.

charged with the management of the business of said counties to settle and agree upon an amount of the said indebtedness that shall be assessed against and paid by the said County of Lamar; and it is hereby made the duty of the Ordinary of the said County of Lamar, when the amount of indebtedness with which the said County of Lamar is chargeable is so ascertained to cause a tax to be levied upon all of the property within the limits of the said County of Lamar sufficient to pay off and discharge the proportionate part of the indebtedness due by the said Lamar County.

“In the event of the failure or refusal of the Ordinary of Lamar County to levy such tax, it shall be the duty of the Judge of the Superior Courts of the Circuit to which said County of Lamar is attached to compel the Ordinary of the said County of Lamar to perform the duty herein required of him. In the event of the failure of the authorities of the counties from which the said Lamar County is created and the Ordinary of said Lamar County to ascertain and agree upon the amount of said indebtedness, then either of said counties may bring a suit against the said County of Lamar in the Superior Court of said County of Lamar for the purpose of having the proportion of said debt so assumed by the said County of Lamar ascertained; and the said Superior Court is hereby given power to enforce whatever judgment may be had as the result of such trial by compelling the Ordinary of said Lamar County to levy a tax sufficient for the payment of the indebtedness found to be due by the County of Lamar; cause the same to be collected

and paid to the constituted authorities of the county or counties from which said Lamar County is created entitled to receive the same.

“It is specially provided that all ad valorem and all other special taxes and all other revenues realized for the year in which this amendment is adopted or ratified by the qualified voters of this State shall be applied to any indebtedness, excepted bonded indebtedness, due and owing by either of the said counties from which the said Lamar County is created; it being the purpose of this provision to fix the basis of settlement between the counties involved upon their financial condition on the 31st day of December next following the ratification of this amendment.”

A BILL.

A bill to define the rights, duties and liabilities of inkeepers and guests in regard to property brought into inns by guests; to create a lien on furniture, baggage, wearing apparel and other property brought into hotels, inns, boarding houses, lodging houses and eating houses, for the protection of such hotels, inns, boarding houses, lodging houses and eating houses in their charges; to provide for the enforcement of such liens; to amend Section 3510 of the Code of Georgia of 1910 by adding a provision requiring inkeepers to give and guests to receive receipts for valuable articles; to amend Section 3511 of the Code of Georgia of 1910 by adding thereto provisions limiting the liability of inkeepers for injury to or loss of property of guests; and for other purposes.

Section 1. Be it enacted by the General Assembly of Georgia, and it is hereby enacted by authority of the same, that from and after the passage of this Act the keeper of every hotel, inn, boarding house, lodging house and eating house in the State

of Georgia, whether licensed or not, shall have a lien on all furniture, baggage, wearing apparel and other property brought into any such hotel, inn, boarding house, lodging house or eating house by any guest or patron of the same who has title to such property, or who has legally acquired possession of such property for the purpose of dealing therewith for the benefit of the owner and in and about the business of the owner, to secure the payment by such guest or patron of all sums due for food, lodging or other accommodation. Such lien shall attach in all cases where a liability has been created without regard to the time of furnishing such food, lodging or other accommodation, and such lien shall be superior to other liens, except liens for taxes, special liens of landlords for rent, liens, liens of laborers and all general liens of which the keeper of such hotel, inn, boarding house, lodging house or eating house has actual notice before the property claimed to be subject was brought into such hotel, inn, boarding house, lodging house or eating house, to which excepted liens it shall be inferior.

gia of 1910 be and the same is hereby amended by adding thereto the following:

“For all valuable articles placed by guests with inkeepers for safe keeping the inkeeper shall give the guest a receipt therefor to evidence the fact of such deposit. No guest shall recover of the inkeeper more than three hundred dollars for loss of valuable articles deposited with the inkeeper for safe keeping unless such guest has in his possession the receipt of the inkeeper for the valuable articles claimed to have been lost;” so that said section as amended shall read as follows:

“Section 3510. The inkeeper may provide an iron safe, or other place of deposit for valuable articles, and, by posting a notice thereof, may require his guests to place such valuable articles therein, or he will be relieved from responsibility for them. A bill to prevent industrial accidents, to provide surgical care for injured employees.

A BILL.

To be entitled an Act to prevent industrial accidents; to provide medical and surgical care for injured employees; to establish rates of compensation for personal injuries or deaths sustained

by employees in the course of employment; to provide methods for insuring the payment of such compensation; to create an Industrial Commission for the administration of this Act, and to prescribe the powers and duties of such Commission, and for other purposes.

Section 1. Be it enacted by the General Assembly of the State of Georgia, and it is hereby enacted by the authority of the same, that this Act shall be known as The Georgia Workmen's Compensation Act.

Section 2. Be it further enacted, That in this Act, unless the context otherwise requires:

(A) "Employees" shall include the State, any Municipal Corporation within the State, and any political division thereof, and any individual, firm, association or corporation engaged in any business for gain or profit, except as hereinafter excepted, and the receiver or trustee of the same, and the legal representative of a deceased employer, using the service of another for pay. If the employer is insured, it shall include his insurer so far as applicable.

(B) "Employee" shall include every person, including a minor, in the service of another under any contract of hire or apprenticeship, written or implied, except one whose employment is not in the usual course of the trade, business, occupation or profession of the employer and, except as hereinafter set out. Minors are included even though working in violation of any child labor law or other similar statute, provided that nothing herein contained shall

be construed as repealing or altering any such law or statute. Any reference to an employee who has been injured shall, when the employee is dead, include also his legal representatives, dependents and other persons to whom compensation may be payable, pursuant to the provisions of this Act.

(C) The basis for computing the compensation provided for in this Act, shall be as follows:

(1) The compensation shall be computed on the basis of the annual earnings which the injured person received as salary, wages or earnings if in the employment of the same employer continuously during the year next preceding the injury

(2) Employment by the same employer shall be taken to mean employment by the same employer in the grade in which the employee was employed at the time of the accident, uninterrupted by absence from work due to illness or any other unavoidable cause.

(3) If the injured person has not been engaged in the employment of the same employer for the full year immediately preceding the accident, the compensation shall be computed according to the annual earnings which persons of the same class in the same employment and same location, (or if that be impracticable, of neighboring employments of the same kind) have earned during such period.

(4) As to employees in employments in which it is the custom to operate throughout the working days of the year, the annual earnings, if not otherwise determinable, shall be regarded as 300 times the average daily earnings in such computation.

(5) As to employees in employments in which it is the custom to operate for a part of the whole number of working days in each year, such number, if the annual earnings are not otherwise determinable, shall be used instead of 300 as a basis for computing the annual earnings: provided, the minimum number of days which shall be so used for the basis of the year's work shall not be less than 200.

(6) In the case of injured employees who earn either no wage or less than the earnings of adult day laborers in the same line of employment in that locality, the yearly wage shall be reckoned according to the average annual earning of adults of the same class in the same (or if that is impracticable then of neighboring) employments.

(7) Earnings, for the purpose of this section, shall be based on the earnings for the number of hours commonly regarded as a day's work for that employment, and shall exclude overtime earnings. The earnings shall not include any sum which the employer has been accustomed to pay the employee to cover any special expense entailed on him by the nature of his employment.

(8) To determine the amount of compensation for each installment period, the amount per annum shall be ascertained pursuant hereto, and such amount divided by the number of installment periods per annum.

(D) "Injury" and "personal injury" shall mean only injury by accident arising out of and in the course of the employment, and shall not include a disease in any form, except where it results nat-

urally and unavoidably from the accident, nor shall "injury" and "personal injury" include injury caused by the wilful act of a third person directed against an employee for reasons personal to such employee or because of his employment.

(E) In all claims for compensation for hernia resulting from injury by accident arising out of and in the course of the employee's employment, it must be definitely proven to the satisfaction of the Industrial Commission: First, that there was an injury resulting in hernia; second, that the hernia appeared suddenly; third, that it was accompanied by pain; fourth, that the hernia immediately followed an accident; fifth, that the hernia did not exist prior to the accident for which compensation is claimed. All hernia, inguinal, femoral or otherwise, so proven to be the result of an injury by accident arising out of and in course of the employment, shall get treated in a surgical manner by radical operation. If death result from such operation, the death shall be considered as a result of the injury, and compensation paid in accordance with the provisions of section thirty-eight. In non-fatal cases, time loss only shall be paid, unless it is shown by special examination, as provided in section twenty-eight, that the injured employee has a permanent partial disability resulting after the operation. If so, compensation shall be paid in accordance with the provisions of section thirty-eight with reference to partial disability. In case the injured employee refuses to undergo the radical operation for the cure of said hernia, no compensation will be allowed during the time such refusal continues. If, however, it is shown that the

employee has some chronic disease, or is otherwise in such physical condition that the Commission considers it unsafe for the employee to undergo said operation, the employee shall be paid as provided in section thirty-one.

Section 3. Be it further enacted, That the provisions of this Act shall not effect pending litigation.

Section 4. Be it further enacted, That from and after the taking effect of this Act, every employer and employee, except as herein stated, shall be presumed to have accepted the provisions of this Act respectively to pay and accept compensation for personal injury or death by accident arising out of and in the course of the employment, and shall be bound thereby, unless prior to any accident resulting in injury or death, notice to the contrary shall have been given in the manner herein provided, and in substantially the following form, to-wit:

Be it further enacted, That when both the employer and employee elect not to operate under this Act, the liability of the employer shall be the same as though he alone rejected the terms of this Act, and in any suit brought against him by such employee the employer shall not be permitted to avail himself of any of the common law defenses cited in section sixteen.

Section 19. Be it further enacted, That nothing herein contained shall be construed so as to prevent settlements made by and between the employee and employer, but rather to encourage them, so long as shall not in any suit at law instituted by an employee, subject to this Act, to recover damages for personal injury or death by accident, be permitted to defend any such suit at law upon any or all of the following grounds:

- (a) That the employee was negligent.
- (b) That the injury was caused by the negligence of a fellow employee.
- (c) That the employee had assumed the risk of the injury

Section 17 Be it further enacted, That an employee who elects not to operate under this Act shall, in any action to recover damages for personal

the amount of compensation and the time and manner of payment are in accordance with the provisions of this Act. A copy of such settlement agreement shall be filed, by the employer, with the Commission and no such settlement shall be binding until approved by the Commission.

Section 20. Be it further enacted, That a principal, intermediate or sub-contractor shall be liable for compensation to any employee injured while in the employ of any of his sub-contractors and engaged upon the subject matter of the contract to the same extent as the immediate employer.

Any principal, intermediate or sub-contractor who shall pay compensation under the foregoing provisions may recover the amount paid, from any person who, independently of this section, would have been liable to pay compensation to the insured employee, or from any intermediate contractor.

Every claim for compensation under this section shall be in the first instance presented to and instituted against the immediate employer, but such proceedings shall not constitute a waiver of the employee's rights to recover compensation under this Act from the principal or intermediate contractor, provided that the collection of full compensation from one employer shall bar recovery by the employee against any others, nor shall he collect from all a total compensation in excess of the amount for which any of the said contractors is liable.

This section shall apply only in cases where the injury occurred on, in or about the premises on

which the principal contractor has undertaken to execute work of which are otherwise under his control or management.

Section 21. Be it further enacted, That all rights of compensation granted by this Act shall have the same preference or priority for the whole thereof against the assets of the employer as is allowed by law for any unpaid wages for labor.

Section 22. Be it further enacted, That no claim for compensation under this Act shall be assignable, and all compensation and claims therefor shall be exempt from all claims of creditors.

Section 23. Be it further enacted, That every injured employee or his representative shall immediately on the occurrence of any accident or as soon thereafter as practicable, give or cause to be given to the employer a written notice of the accident, and the employee shall not be entitled to physician's fees nor to any compensation which may have accrued under the terms of this Act, prior to the giving of such notice; unless it can be shown that the employer, his agent or representative had knowledge of the accident, or that the party required to give such notice had been prevented from doing so by reason of physical or mental incapacity or by fraud or deceit; but no compensation shall be payable unless such written notice is given within thirty days after the occurrence of the accident and if death results from the accident also within thirty days after death, unless reasonable excuse is made to the satisfaction of the Industrial Commission for not giving

such notice, and it is reasonably proved to the satisfaction of the Commission that the employer has not been prejudiced thereby.

Section 24. Be it further enacted, That the notice provided in the foregoing section shall state in ordinary language the name and address of the employee, the time, place, nature and cause of the accident and of the resulting injury or death, and shall be signed by the employee or by a person on his behalf, or in the event of his death by any one or more of his dependents or by a person in their behalf. No defect or inaccuracy in the notice shall be a bar to compensation unless the employer shall prove that his interest was prejudiced thereby, and then only to such extent as the prejudice. Said notice shall be given personally to the employer or any of his agents upon whom a summons in civil action may be served under the laws of the State, or may be sent by registered letter addressed to the employer at his last known residence or place of business.

Section 25. Be it further enacted, That the right to compensation under this Act shall be forever barred, unless a claim be filed with the Industrial Commission within one year after the accident, and, if death results from the accident, unless a claim therefor is filed with the Commission within one year thereafter.

Section 26. Be it further enacted, That for a period of not exceeding 30 days after an accident the employer shall furnish or cause to be furnished, free of charge to the injured employee, and the employee shall accept such necessary medical attention

as the nature of the accident may require. The Industrial Commission may at any time, for good cause shown or in its discretion, order a change in such medical attention so furnished by the employer. Provided, however, that the total liability of the employer for necessary medical attention shall not exceed \$100.00. During the whole or any part of the remainder of disability resulting from the injury, the employer may, at his own option, continue to furnish or cause to be furnished, free of charge to the employee, and the employee shall accept, an attending physician, unless otherwise ordered by the Industrial Commission, and in addition such surgical and hospital service and supplies as may be deemed necessary by said attending physician or the Industrial Commission. The refusal of the employee to accept any medical, hospital or surgical service when provided by the employer, or ordered by the Industrial Commission, shall bar said employee from further compensation until such refusal ceases, and no compensation shall at any time be paid for the period of suspension unless in the opinion of the Industrial Commission the circumstances justified the refusal, in which case the Industrial Commission may order a change in the medical or hospital service. If in an emergency on account of the employer's failure to provide the medical care during the first thirty days, as herein specified, a physician other than provided by the employer is called to treat the injured employee, during the first thirty days, the reasonable cost of such service, not to exceed \$100.00 as above set out, shall be paid by the employer if ordered so to do by the Industrial Commission.

Section 27 Be it further enacted, That the pecuniary liability of the employer for medical, surgical and hospital service herein required when ordered by the Commission shall be limited to such charges as prevail in the same community for similar treatment of injured persons of a like standard of living when such treatment is paid for by the injured persons, and shall not, in any event, exceed the aggregate of \$100.00 in amount. The employer shall not be liable in damages for malpractice by a physician or surgeon furnished by him pursuant to the provisions of this section, but the consequences of any such malpractice shall be deemed part of the injury from the accident and shall be compensated for as such.

Section 28. Be it further enacted, That after an injury and so long as he claims compensation, the employee, if so requested by his employer, shall submit himself to examination, at reasonable times and places, by a duly qualified physician or surgeon designated and paid by the employer or the Industrial Commission. The employee shall have the right to have present at such examination any duly qualified physician or surgeon provided and paid by him. No fact communicated to, or otherwise learned by any physician or surgeon who may have attended or examined the employee, or who may have been present at any examination, shall be privileged, either in hearings provided for by this Act, or in any action at law brought to recover damages against any employer who may have accepted the compensation provisions of this Act. If the employee refuses to submit himself to or in any

way obstructs such examination requested by and provided for by the employer, his right to compensation and his right to take or prosecute any proceedings under this Act shall be suspended until such refusal or objection ceases, and no compensation shall at any time be payable for the period of suspension unless in the opinion of the Industrial Commission the circumstances justify the refusal or obstruction. The employer, or the Industrial Commission, shall have the right in any case of death to require an autopsy at the expense of the party requesting the same. No compensation shall be payable for the death or disability of an employee if his death be caused by or insofar as his disability may be aggravated, caused or continued by an unreasonable refusal or neglect to submit to or follow any competent or reasonable surgical treatment.

Section 29. Be it further enacted, That no compensation shall be allowed for the first fourteen calendar days of incapacity resulting from an injury except the benefits provided for in section twenty-six; but if incapacity extends beyond that period, compensation shall commence with the fifteenth day of disability; provided that if incapacity extends beyond a period of four weeks from the date of the injury, then compensation is to be paid from the date of the injury, subject to the other provisions of this Act.

Section 30. Be it further enacted, That where the incapacity for work resulting from the injury is total, the employer shall pay, or cause to be paid, as hereinafter provided, to the injured employee during such total incapacity a weekly compensation

equal to one-half his average wages, but not more than twelve dollars, nor less than six dollars a week; and in no case shall the period covered by such compensation be greater than three hundred and fifty weeks, nor shall the total amount of all compensation exceed four thousand dollars.

Section 31. Be it further enacted, That except as otherwise provided in the next section hereafter, where the incapacity for work resulting from the injury is partial, the employer shall pay, or cause to be paid, as hereinafter provided, to the injured employee during such incapacity, a weekly compensation equal to one-half the difference between his average weekly wages before the injury and the average weekly wages which he is able to earn thereafter, but not more than twelve dollars a week, and in no case shall the period covered by such compensation be greater than three hundred weeks from the date of the injury. In case the partial incapacity begins after a period of total incapacity, the latter period shall be deducted from the maximum period herein allowed for partial incapacity.

Section 32. Be it further enacted, That in cases included by the following schedule, the incapacity in each case shall be deemed to continue for the period specified, and the compensation so paid for such injury shall be as specified therein, and shall be in lieu of all other compensation, to-wit:

(a) For the loss of a thumb, fifty per centum of the average weekly wages during sixty weeks.

(b) For the loss of a first finger, commonly

called the index finger, fifty per centum of the average weekly wages during thirty-five weeks.

(c) For the loss of a second finger, fifty per centum of average weekly wages during thirty weeks.

(d) For the loss of a third finger, fifty per centum of average weekly wages during twenty weeks.

(e) For the loss of a fourth finger, commonly called the little finger, fifty per centum of average weekly wages during fifteen weeks.

(f) The loss of the first phalange of the thumb, or any finger shall be considered to be equal to the loss of one-half of such thumb or finger, and the compensation shall be for one-half of the periods of time above specified.

(g) The loss of more than one phalange shall be considered the loss of the entire finger or thumb; provided, that in no case shall the amount received for more than one finger exceed the amount provided in this schedule for the loss of a hand.

(h) For the loss of a great toe, fifty per centum of the average weekly wages during thirty weeks.

(i) For the loss of one of the toes other than a great toe, fifty per centum of average weekly wages during ten weeks.

(j) The loss of the first phalange of any toe shall be considered to be equal to the loss of one-half of such toe, and the compensation shall be for one-half of the periods of time above specified.

(k) The loss of more than one phalange shall be considered as the loss of the entire toe.

(l) For the loss of a hand, fifty per centum of the average weekly wages during one hundred and fifty weeks.

(m) For the loss of an arm, fifty per centum of average weekly wages during two hundred weeks.

(n) For the loss of a foot, fifty per centum of average weekly wages during one hundred and twenty-five weeks.

(o) For the loss of a leg, fifty per centum of average weekly wages during one hundred and seventy-five weeks.

(p) For the loss of an eye, fifty per centum of the average weekly wages during one hundred weeks.

(q) For the complete loss of hearing in both ears, fifty per centum of average weekly wages during one hundred and fifty weeks.

(r) Total loss of use of a member or loss of vision of an eye, shall be considered as equivalent to the loss of such member or eye. The compensation for partial loss of or for partial loss of use of a member or for partial loss of vision of an eye shall be such proportion of the payments above provided for total loss as such partial loss bears to total loss. Loss of both arms, hands, legs or feet, or of any two of these members, the permanent total loss of vision in both eyes, shall be deemed permanent total incapacity and shall be compensated under section 30.

The weekly compensation payments referred to in this section shall be subject to the same limitations as to maximum and minimum as set out in section thirty.

Section 33. Be it further enacted, That if an injured employee refuses employment procured for him suitable to his capacity, he shall not be entitled to any compensation at any time during the continuance of such refusal, unless in the opinion of the Industrial Commission such refusal was justified.

Section 34. Be it further enacted, That if an employee who suffers an injury in his employment has a permanent disability or has sustained a permanent injury, such as specified in section thirty-two, suffered elsewhere, he shall be entitled to compensation only for the degree of incapacity which would have resulted from the later accident if the earlier disability or injury had not existed.

Section 35. Be it further enacted, That if an employee receives an injury for which compensation is payable, while he is still receiving or entitled to compensation for a previous injury in the same employment, he shall not at the same time be entitled to compensation for both injuries, unless the later injury be a permanent injury, such as specified in section thirty-two; but he shall be entitled to compensation for that injury and from the time of that injury which will cover the longest period and the largest amount payable under this Act.

Section 36. Be it further enacted, That if an employee receives a permanent injury as specified in section thirty-two, after having sustained an-

other permanent injury in the same employment, he shall be entitled to compensation for both injuries, but the total compensation shall be paid by extending the period and not by increasing the amount of weekly compensation, and in no case exceeding three hundred and fifty weeks. When the previous and subsequent permanent injuries received in the same employment result in total disability, compensation shall be payable for permanent total disability, but payments made for the previous injury shall be deducted from the total payment of compensation due.

Section 37 Be it further enacted, That (a) where an accident happens while the employee is employed elsewhere than in this State, which would entitle him or his dependents to compensation if it had happened in this State, the employee or his dependents shall be entitled to compensation, if the contract of employment was made in this State, and if the employer's place of business is in this State, or if the residence of the employee is in this State; provided his contract of employment was not expressly for service exclusively outside of the State. (b) Provided, however, if an employee shall receive compensation or damages under the laws of any other State, nothing herein contained shall be construed so as to permit a total compensation for the same injury greater than is provided for in this Act.

Section 38. Be it further enacted, That when an employee is entitled to compensation under this Act for an injury received, and death ensues from any cause not resulting from the injury for which

he was entitled to the compensation, payments of the unpaid balance for such injury shall cease and all liability therefor shall terminate.

If during the period of disability caused by an accident arising out of and in the course of the employment, death results proximately therefrom, the compensation under this Act shall be as follows:

(a) The employer shall, in addition to any other compensation, pay the reasonable expenses of the employee's last sickness, and burial expenses not to exceed \$100.00. If the employee leaves no dependents, this shall be the only compensation.

(b) The employer shall pay the dependents of the employee wholly dependent upon his earnings for support at the time of the injury, a weekly payment equal to one-half of his average weekly wages, but not more than ten dollars nor less than five dollars, for a period of three hundred weeks from the date of the injury.

(c) If the employee leaves only dependents partly dependent upon his earnings for support at the time of the injury, the weekly compensation to be paid as aforesaid, shall be equal to the same proportion of the weekly payments for the benefit of persons wholly dependent as the amount contributed by the employee to such partial dependents bears to total dependency at the time of the injury.

(d) When weekly payments have been made to an injured employee before his death, the compensation to dependents shall begin on the date of

the last of such payments, but shall not continue more than three hundred weeks from the date of the injury, nor except during dependency. The total compensation to be paid to all dependents of a deceased employee shall not exceed in the aggregate ten dollars per week.

(c) If the employee does not leave dependents, citizens of or residing at the time of the accident in the United States or the Dominion of Canada, the amount of compensation shall not in any case exceed \$1,000.00.

Section 39. Be it further enacted, That the compensation provided for in section thirty-eight shall be payable only to dependents and only during dependency. The following persons shall be conclusively presumed to be the next of kin wholly dependent for support upon the deceased employee:

(a) A wife upon a husband whom she had not voluntarily deserted or abandoned at time of the accident.

(b) A husband upon a wife with whom he lived at the time of her accident if he is then incapable of self-support and actually dependent upon her

(c) A boy under the age of eighteen, or a girl under the age of eighteen, upon a parent. If a child is over the ages specified above but physically or mentally incapacitated from earning a livelihood, he or she shall be presumed to be totally dependent.

As used in this section, the term "boy," "girl" or "child" shall include stepchild, legally adopted children, posthumous children, acknowledged ille-

gitimate children, but shall not include married children; the term "parent" shall include step-parents and parents by adoption.

If a deceased employee leaves dependent surviving spouse, as above described, and no dependent child or children, the full compensation shall be paid to such spouse; if the deceased employee leaves dependent surviving spouse, as above described, and also a dependent child or children, then the full compensation shall be paid to such spouse for his or her use and that of such child or children, the Commission, however, to have the power in proper cases, in its discretion, to apportion the compensation; if the dependent surviving spouse dies before payment is made in full, the balance remaining shall be paid to the person or persons wholly dependent, if any, share and share alike. If there be no person or persons wholly dependent, then payment shall be made to partial dependents.

In all other cases, questions of dependency, in whole or in part, shall be determined in accordance with the facts as the facts may be at the time of the accident, but no allowance shall be made for any payment made in lieu of board and lodging or services, and no compensation shall be allowed, unless the dependency existed for a period of three months or more prior to the accident; and in such other cases if there is more than one person wholly dependent, the death benefit shall be divided among them, and persons partially dependent, if any, shall receive no part thereof; if there is no one wholly dependent and more than one person partially de-

pendent, the death benefit shall be divided among them according to the relative extent of their dependency.

For the purpose of this Act, the dependence of a widow or widower of a deceased employee shall terminate with remarriage. The dependence of a child, except a child physically or mentally incapacitated from earning a livelihood, shall terminate with the attainment of eighteen years of age. In all cases, except such as are hereinbefore specifically provided for, where there are both total and partial dependents and the total dependents die, remarry or cease to be dependents the partial dependents shall be entitled to the balance of compensation, if any.

Section 40. Be it further enacted, That the total compensation payable under this Act shall in no case exceed four thousand dollars.

Section 41. Be it further enacted, That any payments made by the employer to the injured employee during the period of his disability, or to his dependents, which by the terms of this Act were not due and payable when made, may, subject to the approval of the Industrial Commission, be deducted from the amount to be paid as compensation; provided, that in the case of disability such deductions shall be made by shortening the period during which compensation must be paid and not by reducing the amount of the weekly payments.

Section 42. Be it further enacted, That the Industrial Commission, upon application of either party, may, in its discretion, having regard to the

welfare of the employee and the convenience of the employer, authorize compensation to be paid monthly or quarterly instead of weekly.

Section 43. Be it further enacted, That whenever any weekly payment has been continued for not less than twenty-six weeks, the liability therefor may, where the parties agree and the Industrial Commission deems it to be to the best interests of the employee or his dependents, or where it will prevent undue hardships on the employer, or his insurance carrier, without prejudicing the interests of the employee or his dependents, be redeemed, in whole or in part, by the payment, by the employer, of a lump sum which shall be fixed by the Commission, but in no case to exceed the commutable value of the future installments which may be due under this Act; provided that the lump sum to be paid shall be fixed at an amount which will equal the total sum of the probable future payments, capitalized at their present value upon the basis of interest calculated at five per centum per annum.

Section 44. Be it further enacted, That whenever the Industrial Commission deems it expedient, any lump sum, subject to the provisions of the foregoing section, shall be paid by the employer to some suitable person or corporation appointed by the Superior Court of the county wherein the accident occurred, or the original hearing was held, as trustee, to administer the same for the benefit of the person or persons entitled thereto in the manner provided by the Commission. The receipt of such trustee for the amount as paid shall discharge the employer or any one else who is liable therefor.

Section 45. Be it further enacted, That upon its own motion before judicial determination or upon the application of any party in interest on the ground of a change in condition, the Industrial Commission may at any time review any award or any settlement made between the parties and filed with the Commission and, on such review, may make an award ending, diminishing or increasing the compensation previously awarded or agreed upon, subject to the maximum or minimum provided in this Act, and shall immediately send to the parties a copy of the award. No such review shall effect such award as regards any monies paid.

Section 46. Be it further enacted, That (a) whenever payment of compensation, in accordance with the terms of this Act, is made to a widow or widower for her or his use or for her or his use and the use of the child or children, the written receipt thereof of such widow or widower shall acquit the employer; (b) whenever payment in accordance with the terms of this Act is made to any minor employee eighteen years of age or over, the written receipt of such person shall acquit the employer. In cases where an infant or minor under the age of eighteen years shall be entitled to receive a sum or sums amounting in the aggregate to not more than three hundred dollars as compensation for injuries, or as a distributive share by virtue of this Act, the father, mother, natural guardian or legally appointed guardian of such infant or minor shall be authorized and empowered to receive such monies for the use and benefit of said minor and to receipt therefor; and the release or discharge of such father, mother,

natural guardian or legally appointed guardian shall be in full and complete discharge of all claims or demands of such infant or minor thereunder; (c) whenever payment of over three hundred dollars, in accordance with the terms of this Act, is made to a minor under eighteen years of age, or to a minor child over eighteen physically or mentally incapable of earning, the same shall be made to his duly and legally appointed guardian or to some suitable person or corporation appointed by the Superior Court as hereinbefore provided, as a trustee, and the receipt of such guardian or such trustee shall acquit the employer; (d) payment of death benefits by an employer in good faith to a dependent subsequent in right to another or other dependents shall protect and discharge the employer unless such dependent or dependents prior in right shall have given notice of his or their claim. In case the employer is in doubt as to the respective rights of rival claimants, he may apply to the Industrial Commission to decide between them.

Section 47 Be it further enacted, That if an injured employee is mentally incompetent or is under eighteen years of age at the time when any right or privilege accrues to him under this Act, his guardian, or trustee, may in his behalf claim and exercise such right or privilege.

Section 48. Be it further enacted, That no limitation of time provided in this Act for the giving of notice or making claim under this Act shall run against any person who is mentally incompetent, or a minor dependent, so long as he has no guardian or trustee.

Section 49. Be it further enacted, That whenever any employee for whose injury or death compensation is payable under this Act shall at the time of the injury be in the joint service of two or more employers subject to this Act, such employers shall contribute to the payment of such compensation in proportion to their wage liability to such employee; provided, however, that nothing in this section shall prevent any reasonable arrangement between such employers for a different distribution as between themselves of the ultimate burden of compensation.

Section 50. Be it further enacted, That there is hereby created a Commission to be known as the Industrial Commission, consisting of the Commissioner of Commerce and Labor, who shall be ex-officio chairman, of the Attorney-General, and two members to be appointed by the Governor. One of the members of this Commission to be appointed by the Governor shall serve for two years, and another for the term of four years; and thereafter each member shall be appointed for a term of four years; no more than one member of said Commission appointed by the Governor shall be a person who on account of his previous vocation, employment or affiliation, shall be classified as a representative of employers, and not more than one of such appointees shall be a person who, on account of his previous vocation, employment or affiliation shall be classed as a representative of employees. Each of the appointees by the Governor on said Commission shall devote his entire time to the duties of his office, and shall not hold any position of trust or profit, or be

engaged in any occupation or business interfering or inconsistent with his duties as such member.

Section 51. Be it further enacted, That (a) the salary of each member of the Commission appointed by the Governor shall be four thousand dollars a year, payable in the same manner as the salaries of other State officers are paid. The Commission may appoint a Secretary at a salary of not more than two thousand dollars a year, and may remove him; (b) the Commission may also, subject to the approval of the Governor, employ such clerical or other assistants as it may deem necessary, and fix the compensation of all persons so employed; (c) the members of the Commission and its assistants shall be entitled to receive from the State their actual and necessary expenses while traveling on the business of the Commission, but such expenses shall be sworn to by the persons who incurred the same and shall be approved by the Chairman of the Commission before payment is made; (d) all salaries and expenses of the Commission shall be audited and paid out of the State Treasury in the manner prescribed for similar expenses in other departments or branches of the State service.

Section 52. Be it further enacted, That (a) the Commission shall be provided with adequate offices in the Capitol or some other suitable building in the City of Atlanta, in which the records shall be kept and its official business transacted during regular business hours; it shall also be provided with necessary office furniture, stationery and other supplies; (b) The Commission may appoint deputies

from time to time, as required, to serve only, as and when needed, without permanent positions, who shall have the power to subpoena witnesses and administer oaths, and who may take testimony in such cases as the Commission may deem proper. Such testimony shall be transmitted in writing to the Commission and the Commission shall fix the compensation of such deputies. (c) The Commission or any member thereof may hold sessions at any place within the State as may be deemed necessary by the Commission, subject to the other provisions of this Act.

Section 53. Be it further enacted, That (a) the Commission may make rules, not inconsistent with this Act, for carrying out the provisions of this Act. Processes and procedure under this Act shall be as summary and simple as reasonably may be. The Commission or any member thereof or any person deputized by it shall have the power for the purpose of this Act to subpoena witnesses, administer or cause to have administered oaths, and to examine or cause to be examined such parts of the books and records of the parties to a proceeding as relate to questions in dispute. (b) The sheriffs of this State within their respective jurisdictions, and their respective deputies, shall serve all subpoenas of the Commission or its deputies and shall receive the same fees as are now provided by law for like civil actions; each witness who appears in obedience to such subpoena of the Commission shall receive for attendance the fees prescribed by law for witnesses in civil cases in courts. The Superior Courts shall, on application of the Commis-

sion or any member or deputy thereof, enforce by proper proceedings the attendance and testimony of witnesses and the production and examination of books, papers and records. (c) Any three members of the Commission shall constitute a quorum for the transaction of any business or the rendition of any decision herein provided to be made by the full Commission.

Section 54. Be it further enacted, That the Commission shall prepare and cause to be printed, and upon request furnish free of charge to any employee or employer such blank forms and literature as it shall deem requisite to facilitate or promote the efficient administration of this Act. The Commission shall tabulate the accident reports received from employers in accordance with section sixty-five, and shall publish the same in the annual report of the Commission and as often as it may deem advisable, in such detailed or aggregate form as it may deem best. The name of the employer or employee shall not appear in such publications and the employers reports themselves shall be private records of the Commission, and shall not be open for public inspection except for the inspection of the parties directly involved, and only to the extent of such interest. These reports shall not be used as evidence against any employer in any suit at law brought by any employee for the recovery of damages, or in any proceeding under this Act.

Section 55. Be it further enacted, That if after fourteen days from the date of the injury or at any time in case of death, the employer and the injured employee or his dependents reach an agreement in

regard to compensation under this Act, a memorandum of the agreement in the form prescribed by the Commission shall be filed with the Commission for approval as herein provided; otherwise such agreement shall be voidable by the employee or his dependents. If approved by the Commission, thereupon the memorandum shall for all purposes be enforced by decree or judgment of the Superior Court, as herein specified.

Section 56. Be it further enacted, That if the employer and the injured employee or his dependents fail to reach an agreement in regard to compensation under this Act, or if they have reached such an agreement which has been signed and filed with the Commission and compensation has been paid or is due in accordance therewith, and the parties thereto then disagree as to the continuance of any weekly payment under such agreement, either party may make application to the Commission for a hearing in regard to the matters at issue and for a ruling thereon. Immediately after such application has been received the Commission shall set a date for a hearing, which shall be held as soon as practicable, and shall notify the parties at issue of the time and place of such hearing. The hearing shall be held in the county where the injury occurred, if the same occurred in this State, unless otherwise agreed to between the parties and authorized by the Commission. If the injury occurred without the State of Georgia, and is one for which compensation is payable under this Act, then the hearing above referred to may be held in the county of the employer's residence or place of business, or

in any other county of the State which will, in the discretion of the Commission, be the most convenient for a hearing.

Section 57 Be it further enacted, That the Commission or any of its members shall hear the parties at issue and their representatives and witnesses and shall determine the dispute in a summary manner. The award, together with a statement of the findings of fact and other matters pertinent to the questions at issue shall be filed with the record of the proceedings, and a copy of the award shall immediately be sent to the parties at dispute. The parties may be heard by a deputy, in which event he shall swear or cause the witnesses to be sworn and shall transmit all testimony to the Commission for its determination and award.

Section 58. Be it further enacted, That if an application for review is made to the Commission within seven days from the date of notice of the award, the full Commission shall review the evidence, or, if deemed advisable, as soon as practicable, hear the parties at issue, their representatives and witnesses, and shall make an award and file the same in like manner as specified in the foregoing section, together with its rulings of law in the premises. A copy of the award so made on review shall immediately be sent to the parties at dispute.

Section 59. Be it further enacted, That any award of the Commission, provided for in section fifty-seven, with respect to which no application for a review thereof be filed in due time, or an award of the Commission upon such review as provided in

section fifty-eight shall, in either event, as the case may be, and subject to the other provisions of this Act, be a final award and shall be conclusive and binding as to all questions of fact; but either party to the dispute may, within thirty days from the date of any such final award, or within thirty days from the date of any other final order or judgment of said Commission, but not thereafter, appeal from the decision in such final award or from any other final decision of said Commission to the Superior Court of the county in which the injury occurred, or if the injury occurred without the State, then to the Superior Court of the county in which the original hearing was had, in the manner hereinafter outlined, and upon the following grounds, viz: The party conceiving himself to be aggrieved may file an application in writing with the Commission asking for an appeal from any such order or decree, stating generally the grounds upon which such appeal is sought. In the event such appeal is filed as hereinbefore provided, the Commission shall, within thirty days from the filing of the same, cause certified copies of all documents and papers then on file in its office in the matter, and a transcript of all testimony taken therein, to be transmitted with its findings and order or decree to the Clerk of the Superior Court to which the case is appealable, as hereinbefore set out. The cause so appealed may thereupon be brought on for a hearing in either term time or vacation before said Superior Court upon such record by either party on ten days written notice to the other; subject, however, to an assign-

ment of the same for hearing by the Court. The findings of fact made by the Commission within its power shall, in the absence of fraud, be conclusive, but upon such hearing the Court shall set aside said order or decree of the Industrial Commission if it be found:

(1) That the Industrial Commission acted without or in excess of its powers.

(2) That the order or decree was procured by fraud.

(3) That the facts found by the Industrial Commission do not support the order or decree.

(4) That there is not sufficient competent evidence in the record to warrant the Industrial Commission in making the order or decree complained of, or

(5) That the decree is contrary to law.

No order or decree of the Industrial Commission shall be set aside by the Court upon any ground other than one or more of the grounds above stated. If not set aside upon one or more of such stated grounds, the Court shall affirm the order, judgment, decree or decision of the Commission so appealed from. Upon the setting aside of any such order, decree or decision of the Commission, the Court may recommit the controversy to the Commission for further hearing or proceedings in conformity with the judgment and opinion of the Court, or such Court may enter the proper judgment upon the findings, as the nature of the case may demand. Such decree of the Court shall have the same effect

and all proceedings in relation thereto shall, subject to the other provisions of this Act, thereafter be the same as though rendered in a suit heard and determined by said Court. The Court of Appeals of Georgia shall, within thirty days after this Act takes effect, prescribe such rules of procedure, not inconsistent with the above and foregoing, as may be necessary or proper to fix the details of the form and manner of such appeal.

The Commission of its own motion may certify questions of law to the Court of Appeals of Georgia for decision and determination by the said Court. Any party in interest who is aggrieved by a judgment entered by the Superior Court upon an appeal from an order or decree of the Commission to the Superior Court, may appeal therefrom to the Court of Appeals of Georgia by writ of error and bill of exceptions within the time and in the manner provided by law for appeals by fast bill of exceptions from other orders, judgments and decrees of the Superior Court made by law reviewable upon fast bills of exceptions. In case of an appeal from the decision of the Commission, or of a certification by said Commission of questions of law to the Court of Appeals, said appeal or certification shall operate as a supersedeas, if the employer has complied with the provisions of this Act respecting insurance, and no such employer shall be required to make payment of the award involved in the questions made in the case so appealed or certified until such questions at issue therein shall have been fully determine in accordance with the provisions of this Act.

Section 60. Be it further enacted, That any party in interest may file in the Superior Court of the county in which the injury occurred, or if the injury occurred without the State of Georgia, then in the county in which the original hearing was had, a certified copy of a memorandum of agreement approved by the Commission, or of a final order or decision of the Commission, or of an award of the Commission unappealed from, or of an award of the Commission affirmed upon appeal, whereupon said Court shall render judgment in accordance therewith and notify the parties. Such judgment shall have the same effect, and all proceedings in relation thereto shall thereafter be the same, as though said judgment had been rendered in a suit duly heard and determined by said Court. Provided, however, that where the payment of compensation is insured or provided for in accordance with the provisions of this Act, no such judgment shall be entered nor execution thereon issued, except upon application to the Court and for good cause shown. Upon presentation to the Court of a certified copy of a decision of the Commission ending, diminishing or increasing a weekly payment under the provisions of this Act, particularly of section forty-five thereof, the Court shall revoke or modify the order or decree to conform to such decision of the Commission upon their passage:

Section 61. Be it further enacted, That if the Commission or any Court before whom any proceedings are brought under this Act shall determine that such proceedings have been brought, prosecuted or defended without reasonable ground, it

may assess the whole cost of the proceedings upon the party who has brought or defended them.

Section 62. Be it further enacted, That the Commission or any member thereof may, upon the application of either party or upon its own motion, appoint a disinterested and duly qualified physician or surgeon to make any necessary medical examination of the employee and to testify in respect thereto. Said physician or surgeon shall be allowed traveling expenses and a reasonable fee to be fixed by the Commission, not exceeding ten dollars for each examination and report, but the Commission may allow additional reasonable amounts in extraordinary cases. The fees and expenses of such physician or surgeon shall be paid by the State.

Section 63. Be it further enacted, That fees of attorneys and physicians and charges of hospitals for services under this Act shall be reasonable and measured according to the employee's station and shall be subject to the approval of the Commission.

Section 64. Be it further enacted, That all questions arising under this Act, if not settled by agreements of the parties interested therein, with the approval of the Commission, shall be determined by the Commission, except as otherwise herein provided.

Section 65. Be it further enacted, That (a) every employer who accepts the provisions of this Act relative to the payment of compensation, shall hereafter keep a record of all injuries, fatal or otherwise, received by his employees in the course of their employment, on blanks approved by the Commission. Within ten days after the occurrence and knowledge

thereof, as provided in section twenty-three, of an injury to an employee requiring medical or surgical treatment, or causing his absence from work for more than fourteen days, a report thereof shall be made in writing and mailed to the Commission on blanks to be procured from the Commission for this purpose. (b) The records of the commission, insofar as they refer to accidents, injuries and settlements, shall not be open to the public, but only to the parties satisfying the Commission of their interest in such records and the right to inspect them. (c) Upon the termination of the disability of the injured employee, the employer shall make a supplementary report to the Commission on blanks to be procured from the Commission for the purpose. (d) The said report shall contain the name, nature and location of the business of the employer, and name, age, sex and wages and occupation of the injured employee, and shall state the date and hour of the accident causing the injury, the nature and cause of the injury and such other information as may be required by the Commission. (e) Any such employer who refuses or wilfully neglects to make the report required by this section shall be liable for a penalty of not more than twenty-five dollars for each refusal or wilful neglect, to be recoverable in any Court of competent jurisdiction in a suit by the Commission.

Section 66. Be it further enacted, That every employer who accepts the provisions of this Act relative to the payment of compensation shall fully insure and keep fully insured, unless otherwise ordered or permitted by the Commission, his liability thereunder in some corporation, association or or-

ganization, licensed as provided by law, to transact the business of Workmen's Compensation Insurance in this State, or in some mutual insurance association formed by a group of employers so licensed, or shall furnish to the Commission satisfactory proof of his financial ability to pay direct the compensation in the amount and manner and when due as provided for in this Act. In the latter case the Commission may in its discretion require the deposit of an acceptable security, indemnity or bond to secure the payment of compensation liabilities as they are incurred. Provided that it shall be satisfactory proof of the employer's financial ability to pay direct the compensation in the amount and manner when due, as provided for in this Act, and acceptable security, indemnity or bond to secure the payment of compensation liabilities as they are incurred, if the employer shall show to the Commission that he is a member of a mutual insurance company, duly licensed to do business in this State by the Insurance Commissioner, as provided by the laws of this State, or of an association or group of employers, so licensed, and as such is exchanging contracts of insurance with the employers of this and other States, through a medium as specified and located in their agreements between each other, but this proviso shall in no wise restrict or qualify the right of self insurance as hereinbefore authorized. Nothing herein shall be construed to require an employer to place his entire insurance in a single insurance carrier.

Section 67 Be it further enacted, That (a) every employer accepting the compensation provisions of this Act shall within thirty days after this

Act takes effect file with the Commission in form prescribed by it, and thereafter annually, or as often as the Commission, in its discretion, may deem necessary, evidence satisfactory to the Commission of his compliance with the provisions of section sixty-six and all others relating thereto. (b) If such employer refuses or wilfully neglects to comply with these provisions he shall be punished by a fine of not less than \$10.00 nor more than \$100.00 and after such conviction shall be subject to a fine of not less than one dollar nor more than ten dollars for each day of such refusal or neglect, and until he shall comply with such provision, and also such employer shall be liable during continuance of such refusal or neglect to an employee, at the option of the employee, either for compensation under this Act or at law in the same manner as provided in section sixteen.

Section 68. Be it further enacted, That whenever an employer has complied with the provisions of section sixty-six, relating to self-insurance, the Commission shall issue to such employer a certificate which shall remain in force for a period fixed by the Commission, but the Commission may upon at least sixty days' notice and hearing to the employer revoke the certificate upon satisfactory evidence for such revocation having been presented. At any time after such revocation the Commission may grant a new certificate to the employer upon his petition.

Section 69. Be it further enacted, That (a) subject to the approval of the Commission, any employer may enter into or continue any agreement

with his employees to provide a system of compensation, benefit or insurance in lieu of the compensation and insurance provided by this Act. No such substitute system shall be apporved unless it confers benefits upon injured employees at least equivalent to the benefits in addition to those provided by this Act, nor if it requires contribution from the employees unless it confers benefits in addition to those provided under this Act at least commensurate with such contribution. (b) Such substitute system may be terminated by the Commission on reasonable notice and hearing to the interested parties if it shall appear that the same is not fairly administered or if its operation shall disclose defects threatening its solvency, or if for any substantial reason it fails to accomplish the purpose of this Act; and in this case the Commission shall determine upon the proper distribution of all remaining assets, if any, subject to the right of any party at interest to take an appeal to the Superior Court of the County wherein the principal office or chief place of buisness of the employer is located.

Section 70. Be it further enacted, That all policies insuring the payment of compensation under this Act, including all contracts of mutual, reciprocal or inter-insurance, must contain a clause to the effect that as between the employer and the insurer or insurers the notice to or knowledge of the occurrence of the injury on the part of the insured employer shall be deemed notice or knowledge, as the case may be, on the part of the insurer or insurers; that jurisdiction of the insured for the purpose of this Act shall be jurisdiction of the insurer

or insurers; and that the insurer or insurers shall in all things be bound by and subject to the awards, judgments or decrees rendered against such insured employer.

Section 71. Be it further enacted, That no policy or contract of insurance against liability arising under this Act shall be issued unless it contains the agreement of the insurer or insurers that it will promptly pay to the person entitled to same all benefits conferred by this Act, and all installments of the compensation that may be awarded or agreed upon, and that the obligation shall not be affected by any default of the insured after the injury or by any default in giving notice required by such policy, or otherwise. Such agreement shall be construed to be a direct promise by the insurer or insurers to the person entitled to compensation enforceable in his name.

Section 72. Be it further enacted, That (a) every policy for the insurance of the compensation herein provided, or against liability therefor, including all contracts of mutual, reciprocal inter-insurance, shall be deemed to be made subject to the provisions of this Act. No corporation, association or organization, and no mutual, reciprocal or inter-insurers shall enter into or make any such policy or contract of insurance unless its form shall have been approved by the Commission. (b) This Act shall not apply to policies of insurance against loss from explosion of boilers or fly wheels or other similar catastrophe hazards.

Section 73. Be it further enacted, That (a) the rates charged by all carriers of insurance, including

the parties to any mutual, reciprocal, or other plan or scheme, writing insurance against the liability for compensation under this Act, shall be fair, reasonable and adequate, with due allowance for merit rating, and all risks of the same kind and degree of hazard, shall be written at the same rate by the same carrier. The basic rates for policies or contracts of insurance against liability for compensation under this Act shall be filed with the Insurance Commissioner for his approval, and no policy of insurance against such liability shall be valid until the basic rate thereof has been filed with, approval and not subsequently disapproved, by the Insurance Commissioner. Any plan or scheme for modification of such basic rates by physical inspection or experience or merit rating shall likewise be filed with the Insurance Commissioner and by him approved, and no carrier of insurance shall write any such policy or contract until after filing and approval of a basic rate therefor and a schedule or plan to be employed in producing individual rates for risks.

(b) Each such insurance carrier, including the parties to any mutual, reciprocal or other plan or scheme writing insurance against the liability for compensation under this Act, shall report to the Insurance Commissioner as provided by law, and in accordance with such reasonable rules as the Insurance Commissioner may at any time prescribe for the purpose of determining the solvency of the carrier, and the adequacy or reasonableness of its rates and reserves; for such purpose the Insurance Commissioner may inspect all books and records of such insurance carrier and of its agent or agents, and examine its agents, officers and directors under oath.

Section 74. Be it further enacted, That if any section of the provisions of this Act be decided by the Courts to be unconstitutional or invalid, the same shall not affect the validity of this Act as a whole or any part thereof other than the part so decided to be unconstitutional or invalid.

Section 75. Be it further enacted, That this Act, except as prescribed in section fifty, shall become effective March 1, 1921, and section fifty shall become effective October 1, 1920.

Section 76. Be it further enacted, That for the of \$5,000.00 shall be allowed for the incidental and contingent expenses of said commission, including compensation for deputies, clerical assistance, office supplies and the actual traveling expenses of the Commission and such deputies while traveling for any of the purposes of said commission as provided in this Act.

Ayes 36, Nays 0.

The resolution having received the requisite constitutional majority was passed.

The following message from His Excellency, the Governor, was read for the information of the Senate:

The Committee appointed under resolution of date July, 1920, composed of the Speaker of the House, President of the Senate, Chairmen and Vice-Chairmen of the Appropriations and of the Ways and Means Committees of the House and Senate, the Governor of Georgia, the Comptroller-General, the Treasurer, and the Secretary of State of the State, submits the following report:

Your Committee, charged with the duty of making immediate investigation of the financial status of the State for the purpose of ascertaining whether there exists a casual deficiency in revenue, finds that beginning about March 1, 1920, it was necessary for the Governor to borrow \$150,000-00 in order to pay the first installment due pensioners, and honor other necessary warrants drawn for appropriations.

On April 21, 1920, on payment of the second installment to pensioners, it was necessary for the Governor to exhaust his borrowing power. Since said date, the State Treasury, due to lack of funds, has not been able to honor all requisitions made; but, on the other hand, for thirty or forty days prior to the convening of the General Assembly of Georgia, the Treasury of the State was practically exhausted.

On July 22, 1920, when your Committee met, there were warrants awaiting the signature of the Governor for the sum of \$86,277.83—\$74,277.83 of this amount was for the support of the Sanitarium, and \$12,000.00 were requests from different State institutions and agencies.

When requisitions already made are honored, if no other funds are received by the Treasurer, there would be left about \$12,418.06, as the Treasurer reported a balance of only \$98,695.89 on July 22nd. It is very probable that other requests—those incident to the present session of the General Assembly if no others—would easily consume the \$12,000 referred to, and all other funds that can be anticipated would, before that date, come into the Treasury, and thus it seems highly probable that the Treasury on the first of the month, would be completely drained.

Your Committee finds that the total appropriations for 1920, including those listed on Page 7 of the 1919 report of the Comptroller General and the \$500,000.00 appropriated since the General Assembly convened for the increase of pensions to Confederate Veterans, and the \$300,000.00 deficiency appropriation to the State Sanitarium, amount to \$9,874,616.50. The total revenues, including known available revenues and anticipated revenues—the revenues anticipated being most liberally estimated, and indeed, placed at a sum which many of the members of your Committee confidently feel is double what the revenues will really be—will give the State only \$9,828,791.97, thus leaving an excess of \$45,824.63 of appropriations over the revenues that will

be realized this year, although the revenues, as above stated, are placed at the most liberal figures which even the most sanguine members of the Committee feel could be expected.

It is thus seen that the General Assembly can not make any appropriations beyond those above set forth, unless it shall also make provision to provide the necessary revenues to pay the same.

Your Committee being of the opinion that appropriations asked for in many instances are most worthy and should be made, therefore recommends to the General Assembly that it pass Substitute for House Bill providing for an amendment to the Constitution in order to admit of taxation of incomes, inheritances and occupations.

Respectfully submitted,

HUGH M. DORSEY, Gov.

JOHN N. HOLDER

IVAN E. ALLEN

GEO. H. CARSWELL

Committee.

The following communication was read for the information of the Senate:

July 28, 1920.

Hon. Ivan E. Allen,
The Senate,
The Capitol.

Dear Mr. Allen:

I respectfully invite you, and through you the Senate, to attend the address to be given at the Baptist Tabernacle on Thursday night, 8 o'clock, of

this week, July 29, by Mr. William E. (Pussyfoot) Johnson.

Mr. Johnson was for many years Chief Special Agent in the Government Indian Service, where his courage and efficiency won him the nickname "Pussyfoot."

Mr. Johnson was invited to England by British Temperance Associations to tell what American prohibition is; and what prohibition has done in America.

He was mobbed by "wet" hoodlums and in the struggle lost an eye. His sportsmanship captured the British love of fair sport and he became the most talked of man in England.

The subject of his address is: "What I Can See Through My Glass Eye."

Admission is free.

I am sure the presence of the Senate will add to the dignity and interest of the occasion and assist in molding sentiment for enforcement of law.

With best wishes, yours sincerely,

CHAS. O. JONES,

State Superintendent Georgia

Anti-Saloon League.

The invitation was accepted.

Atlanta, Ga., August 2, 1920.

The following message was received from His Excellency, the Governor, through his Clerk, Mr. Cobb:

Mr President:

I am directed by His Excellency, the Governor, to deliver to the Senate a communication in writing to which he respectfully invites your attention.

The following communication from the Governor was read for the information of the Senate:

Atlanta, August 2, 1920.

State of Georgia, Executive Department,

To The General Assembly of Georgia:

On the 7th day of July, 1920, a message transmitting a report of the "Commission on the Release of the Western & Atlantic Railroad," was sent your honorable body. In this report said Commission requested that it be discharged, and suggested that the Railroad Commission be hereafter charged with such further duties as arise in connection with said railroad and its properties.

You are respectfully urged to pass at this session a resolution in accordance with this request.

It is proper, I think, to invite your attention to the splendid work done by this Commission in negotiating and consummating the renewal lease under which the State is receiving this year \$548,340.00 in cash, and other valuable considerations.

The Commission has rendered a service to the people of Georgia equal to that of Hon. Wm. H. Felton, deceased, who, as a member of the General Assembly of Georgia, chiefly directed and shaped the necessary legislation in connection with the lease beginning December 27, 1890 and expiring December 27, 1919.

The Commission making the lease was composed of Hon. C. M. Candler, Chairman; Messrs. G. Gunby Jordan, E. A. Copeland, St. Elmo Massengale, and Hon. N. E. Harris, Governor Ex-Officio. The work of the Commission, as regards the lease of the railroad, had been fully accomplished before my induction into office. Not having been a member of the Commission when the present lease of the railroad was made, I feel no hesitancy in suggesting the propriety of your passing also a resolution of thanks to the Commission. It richly deserves such recognition at your hands.

I further respectfully submit that the work done by the Chairman of the Commission is deserving of especial recognition. He has served without compensation beyond what has been paid him for his duties as Chairman of the Railroad Commission of the State. It would be quite appropriate, if, in addition to the resolution suggested, some substantial consideration should be awarded him. I submit this for your consideration without any suggestion whatever from him and without his knowledge or consent, and solely because I consider it should be the policy of the State to reward faithful and efficient service.

Respectfully submitted,

HUGH M. DORSEY, Governor.

To Be Entitled An Act to create and establish the Securities Commission, to provide the membership of said Commission, and define the duties and powers thereof, to define and classify securities, and regulate the sale thereof, to provide for the license of dealers in securities and their agents, to fix fees therefor, to provide a penalty for violations of this Act, and for other purposes. Be it enacted by the General Assembly of Georgia.

and it is hereby enacted by authority of the same, as follows:

Section 1. That this Act shall be known as "The Georgia Securities Law," and that it shall repeal and supersede the Act approved August 19, 1913, known as the "Georgia Blue Sky Law."

Section 2. There shall be, and there is hereby created and, established a Securities Commission which shall be composed of the Secretary of State, who shall be Chairman of said Commission, the Attorney General, and the Commissioner of Commerce and Labor, all of whom shall serve upon and perform the duties of said Commission without additional compensation; provided, that should any of the above-named members of said Commission be or become, directly or indirectly interested in any firm or corporation which is a dealer in securities coming within the supervision of said Commission, then the Governor shall name and appoint either the Comptroller-General, the Tax Commissioner, or the Commissioner of Agriculture to take the place of the member or members of said Commission so interested, and thereby disqualified, and such appointee shall serve on said Commission so long as such qualification shall last.

Section 3. The Commission shall have authority to employ a Chief Examiner at a salary of not to exceed three hundred (\$300.00) dollars per month, and such other examiners, clerks, stenographers and other employees as the administration of its office and affairs may require, whose salaries shall be fixed by said Commission, and paid out of the fees col-

lected as herein provided. The office supplies, printing, and equipment, and other expenses, and traveling expenses of the Commission and its examiners, shall be defrayed out of said fees, which are hereby allocated to defray the expenses of the Commission.

Section 14. The applicant, if not a resident of or was not organized under the laws of this State, shall at the same time, and before any license shall issue, file with the Commission a duly executed written instrument, irrevocable, consenting that any action brought against such applicant, arising out of and founded upon sale or disposal of such securities by him or his agents may be brought in any county in the State where such securities were sold; and shall at the same time, when the applicant is not a resident of or was not organized under the laws of this State, file with said Commission a written instrument as power of attorney, duly signed and sealed, appointing and authorizing some person, who shall be a resident of this State, to acknowledge or receive service of process, and upon whom process may be served, for and in behalf of such applicant, in all proceedings that may be instituted against such applicant in any Court of this State, or any Court of the United States in this State, and consenting that service of process upon any agent or attorney appointed under the provisions of this section shall be taken and held to be as valid as if served upon the applicant, and such instrument shall further provide that the authority of such attorney shall continue until revocation of his appointment is made by such applicant by filing a similar instrument with said Commission, whereby another person shall be appointed as such attorney.

If any attorney so appointed shall absent himself from this State, or his usual place of business or abode, as designated by the applicant, or shall secrete himself, so that process may not be served upon

him, or shall have become disqualified from any cause whatever, or shall die, the Commission shall immediately appoint an attorney for service for such applicant or licensee, of which appointment notice in writing shall be immediately given by the Commission to such appointee, and also be sent to the applicant or licensee by registered mail, or to its general agent or manager, which appointment shall be as valid as if made by the applicant or licensee, and shall continue in force until such absent agent or agent or attorney shall return and give notice thereof, or until the applicant or licensee shall have made another appointment in the manner above prescribed.

Service of process as aforesaid, issued by any such Court as aforesaid, upon any such attorney appointed by the applicant or licensee, or by the Commission, shall be valid and binding, and be deemed personal service upon such applicant or licensee so long as it shall have any obligations or liabilities outstanding in this State, although such applicant or licensee may have withdrawn, been excluded from, or ceased to do business in this State. If any applicant shall fail, neglect or refuse to appoint and maintain within this State such attorney or agent, it shall forfeit the right to do or continue business in this State.

Section 15. If the Commission be satisfied of the good repute in business of such applicant and named agents, he shall upon the payment of an annual fee of fifty (\$50.00) dollars, and an additional fee of five (\$5.00) dollars for each agent named in the application, register the applicant as a licensed

dealer in such securities, and issue to him a license containing the name of the applicant and all such agents, renewable annually upon payment of such annual fee, unless revoked as herein provided. Pending a final disposition of such application the Commission may grant temporary permission to such applicant to transact business as a dealer under this Act. All such renewals shall be made as of the first day of January of each calendar year, upon proper application therefor, filed not less than twenty (20) nor more than sixty (60) days next preceding such date.

Section 16. Such license shall be taken out at the beginning of each calendar year, but it may be issued at any time for the remainder of such year, and in such case the annual fee shall be reduced four dollars for each expired month but in no case shall it be less than ten (\$10.00) dollars. Upon the payment of a fee of five (\$5.00) dollars for each specified agent not named in such license the same may, at any time, be amended or supplemented to include such agent. Upon the written request of such applicant, accompanied by a fee of two (\$2.00) dollars, such license shall be revoked as to any agent or agents of such applicant, and an amended license shall thereupon be issued to such applicant and his remaining agents; and thereafter the applicant shall not be bound by the acts of the agent whose license has been revoked.

Section 17 The printed license, on a form to be prepared and furnished by the Securities Commission, shall bear at the top in bold-face type the expression: "License for the Sale of Securities in

Class 'C' (or Class 'D,' as the case may be) under the Georgia Securities Law. Neither the State of Georgia nor the Securities Commission nor any officer of the State of Georgia nor the Securities Commission nor any official of the State assumes any responsibility for any statement contained herein, nor recommends the securities described below."

Said license shall also contain:

(1) A full and complete description of the securities authorized to be sold thereby;

(2) The names and addresses of each and every dealer, broker, solicitor, agent or other person authorized to sell or offer for sale the securities therein described;

(3) Such information taken from the statements and documents filed with the Commission by the licensee, as will fully and clearly show the nature and character of the securities therein described;

(4) Such other and further statements and information as may be considered necessary or proper by the Commission.

Section 18. The Commission may at any time revoke any license granted by it or refuse to renew the same, upon ascertaining that the licensee:

(1) Is of bad repute;

(2) Has violated any provision of this Act;
or,

(3) Has engaged in or is about to engage in, under favor of such license, illegitimate business or fraudulent transactions.

No dealer whose license has been revoked shall be relicensed within six months (6) from the date of such revocation.

The Commission shall at once lay before the Solicitor-General of the proper county any evidence which shall come to its knowledge of the violation of the provisions of this Act, and it shall be the duty of such Solicitor-General to prosecute diligently any person or persons named in the information furnished by the Commission.

Section 19. At least five (5) days before revoking or refusing to grant or renew a license, the Commission shall send by registered mail to the licensee or applicant, at the address named in the application, written notice of its intention so to do, specifying therein the reason for such revocation or refusal and giving such applicant an opportunity to be heard in his or its own behalf.

Section 20. Anyone whose license shall be refused or revoked, or to whom a renewal of license may be denied, may file, within thirty (30) days thereafter, in the Superior Court of Fulton County, a petition against the Commission officially, as defendant, alleging therein, in detail, the petitioner's qualifications to be licensed and praying for a reversal of the official action complained of. Upon service of summons said Commission, returnable within ten (10) days from its date, but otherwise made as in civil actions, it shall file an answer in which it shall allege by ways of defense the grounds previously assigned in its notice to such applicant or licensee, and such other grounds as shall, in the

meantime, accrue or be discovered. All allegations of the answer shall be deemed to stand denied without further pleadings, and, upon application of either party, the cause shall be advanced and heard without delay. The Court's decision shall consult only the rights of the plaintiff and the protection of the public, and the Commission shall prosecute no proceedings to obtain a reversal, modification or vacation of the judgment rendered in favor of the plaintiff and in such event shall forthwith issue the license applied for. A judgment sustaining the refusal of the Commission to grant or renew a license shall not bar after sixty (60) days, a new application by plaintiff for a license, nor shall a judgment in favor of the plaintiff prevent the Commission from thereafter revoking such license for any proper cause which may thereafter accrue or be discovered. The Commission shall in such Court proceedings be represented by the Attorney-General.

Section 21. If the applicant's statement as to securities in Class "D" shall disclose that any of such securities shall have been or shall be intended to be issued, for any patent right, copyright, trade mark, process or good will, or for promotion fees or expenses, or for other intangible assets, **the amount and nature thereof**, shall be fully set forth, and securities issued in payment of such patent rights, copyrights, trade mark, process or good will, or for promotion fees or expenses or for other intangible assets, shall be delivered in escrow to such bank or trust company as shall be designated by the Commission under an escrow agreement that the owners of such securities shall in case of dissolution or insolvency not

participate in the assets of the corporation until after the owners of all other securities have been paid in full. Such escrow agreements shall remain in full force until the securities of the issuer thereof are qualified under Class "C" hereof.

Section 22. So long 'as any security is sold or offered for sale under the provisions of this Act, such persons, the issuer, either solicitor or broker, shall on or before the expiration of each six (6) month period from the date of filing the original statements and documents, and oftener if required by the Commission, file new or supplemental statements disclosing:

(1) The amount of securities sold, the names and addresses of the parties to whom the same were sold, the sale price thereof and the amount of cash proceeds received therefor by the issuer;

(2) All changes in the financial condition of the issuer or in its management or property, accompanied by a copy of the most recent balance sheet of the issuer showing the financial condition of the issuer at a date not more than thirty (30) days prior to the date of such filing, and such other facts as the Commission may require.

Such supplemental statement shall be verified in the same manner as the original statement; and upon failure or refusal to file such statement the Commission may revoke the license issued by it.

Section 23. Each financial statement, prospectus, advertisement, circular and document circulated, published, exhibited or distributed for the

purpose of effecting sales of securities in Class "D" shall contain the words in bold-face type, "Securities in Class 'D' under Georgia Securities Law. These are speculative securities." But it shall be unlawful to make any other reference in any such matter to the fact that the issuer, solicitor, agent or broker has complied with the provisions of this Act. All such statements, prospectuses, advertisements, circulars and documents shall also contain a statement of the assets, liabilities, income and expenses of the issuer, the law under which the issuer was incorporated or organized, and the names and addresses of all officers, directors, or trustees of the issuer or of the owner of the property constituting the basis of the issue of such securities. A copy of each such financial statement, prospectus, advertisement, circular, and document so circulated, published, exhibited, or distributed shall be filed in the office of the Commission within five (5) days after the first circulation, publication, exhibition, or distribution thereof.

Section 24. No person or company, unless licensed in the manner and under the conditions applicable thereto, heretofore provided for dealers in securities, coming within the provisions of this Act, shall within this State deal in any interest in real estate not located in Georgia, less than a freehold interest.

This section shall apply where the title to such property is held in the name of a trustee for any corporation or for any such described person or company, but it shall not be deemed to prohibit the disposal by any owner of his own property in good

faith and not for the purpose of avoiding the provisions of this Act, where the transaction is not one of repeated transactions of a similar nature performed as part of the business of dealing in real estate leases.

Section 25. The Commission shall have power to make or cause to be made, such examinations of the issuer of securities within the provisions of this Act, or of the property named in the next preceding section, at any time, both before and after the issuance of a dealer's license, as it may deem advisable. When in the discretion of the Commission all or any part of the expense of such examination should be paid by the applicant, such applicant shall deposit with the Commission such sum of money as the Commission may order, out of which said sum the Commission shall pay such portions of the expense of such examination as it determines said applicant should pay. The Commission shall render to the applicant an itemized statement of the expenditure and a proper record thereof shall be kept.

Section 26. In addition to the liability now imposed by law, any person, company, association, co-partnership or corporation that by written or printed letter, circular, prospectus, statement, advertisement or document of any kind, shall offer for subscription or purchase any security, or receive the profit accruing from the disposal of security, or receive the profit accruing from the disposal of securities so advertised, shall be liable to any person who, on the faith of such letter, circular, prospectus, statement, advertisement or document, acquires such security, for the loss or damage sustained by

him by reason of any untrue statement contained therein, unless such person, company, association, copartnership, or corporation shall establish that he or it has no knowledge or notice of the publication of such advertisement prior to the transaction complained of, or had just and reasonable grounds to believe the statement thereof to be true. Wherever any corporation shall be so liable, the directors thereof shall be so liable, the directors thereof shall also be, under like limitations, jointly and severally liable. Any such director, upon the payment of a judgment, so obtained against him, shall be subrogated to the rights of the plaintiff against such corporation and shall have the right of contribution for the payment of such judgment under like limitations against any of his fellow directors. Lack of reasonable diligence to ascertain the facts of such publications or the falsity of any statement therein contained, shall be deemed to be knowledge of such publication and of the falsity of any untrue statement thereof. Any action based upon the liability hereby imposed, shall be brought within two (2) years after the acquisition of the security by any person so damaged or after payment of the judgment for which contribution is sought.

Section 27 The Securities Commission shall, either by one of its members, or by such person or persons as it may appoint for the purpose, at least once a year, and oftener if it deems advisable, investigate the business and affairs of every licensee, and for that purpose shall have free access to the vaults, books and papers thereof, and other sources of information with regard to the business of such

licensees and whether it has been transacted in accordance with this Act. Said Commission, each member thereof, and every examiner appointed by it, shall have authority to examine, under oath or affirmation, any person whose testimony may relate to the business of any such licensee or alleged violator herein.

Section 28. The Securities Commission shall have an official seal, upon which shall be engraved the words: "Securities Commission of Georgia," and in addition thereto such design as the Commission may prescribe. The Commission may prescribe and furnish forms for all statements and documents and summaries required by this Act to be filed in its office and such statements, documents and summaries shall follow substantially the forms so prescribed. All statements and documents and all other matters filed in the office of the Commission under the provisions of this Act shall at all proper hours be available for public inspection.

The Commission shall, on or before the first day of June of each year and as often in addition thereto as it may be required, furnish the Governor a complete report of the administration of its office, giving a detailed account of the number of applicants licensed and rejected, of all fees collected by it, together with a sworn itemized statement of the expenditures of the Commission.

Section 29. Any dealer, solicitor, agent of a dealer, or other person who shall sell, offer for sale, invite offers for inquiries about securities coming within Classes "C" and "D" as defined by this Act,

or who shall file with the Commission any false or misleading statements in reference to such classes of securities, with an intent to defraud, shall be guilty of a misdemeanor, and, upon conviction thereof, shall be punished in accordance with Section 1065 of the Penal Code of Georgia, 1910. Every sale or contract of sale made by a dealer or his agent, or other person, coming within the provisions of this Act, who has not first secured a license from the Securities Commission, or whose license has been revoked or has expired, shall be void and may be rescinded by the purchaser within one year, but not thereafter.

Section 30. Nothing in this Act shall be construed to relieve corporations from making the annual registration now required by law to be made to the Secretary of State, or paying the fee required for the filing of such report. This Act shall not be construed to repeal any law now in force regulating the organization of corporations in this State or the admission of any foreign corporation, but the provisions of this Act shall be construed to be additional to any provision regulating the organization of a corporation under the laws of Georgia, or the admission of a foreign corporation to do business in this State.

SUBSTITUTE FOR SENATE BILL No. 313.

A BILL

To Be Entitled an Act to provide for the abolishment of grade crossings of highways over railways; to provide for the construction of overhead bridges and underpasses at crossings; and for the maintenance of the same, and for other purposes.

Section 1. Be it enacted by the General Assembly of the State of Georgia and it is hereby enacted by authority of the same that jurisdiction and authority is hereby granted to the Railroad Commission of Georgia over the subject of the abolishment of grade crossings of public highways over railroads in this State, the construction and maintenance of overhead bridges and underpasses at such crossings, the re-location of the highways so as to

facilitate the elimination of grade crossings and to provide for such overhead bridges or underpasses being the more conveniently or economically established and built, and to make and enforce regulations on the subject; all of which jurisdiction and authority said commission is to exercise subject to the further provisions of this Act.

Section 2. Whenever the county authorities in any county or municipalities in this State shall determine that any grade crossing in said county of any public highway, with any railroad should be abolished, and an overhead bridge or underpass should be erected, they shall by petition present the matter to the Railroad Commission. The Railroad Commission shall thereupon set the matter down for a hearing, giving notice of the time and place thereof to the county authorities in question and to the railroad company involved. Hearings may be had either at the office of the commission or in the county where the crossing in question is situated. After hearing the parties at interest, or after giving them opportunity to be heard, the commission shall have the authority to pass upon the matter; and may grant or refuse the application or may grant it upon such conditions as shall seem just and proper in the premises, making an apportionment between the railroad and county or municipality as to the expense therefor. If the commission favorably entertains the application, it shall cause the parties to submit plans and specifications and estimates of cost and shall require the applicants to show that they have made adequate provision for the funds necessary to pay the county's part of the

expense. It shall thereupon have authority to pass an order requiring the railroad company to erect an overhead bridge or underpass as the case may be, together with such approaches and abutments thereto as shall be within the limits of the company's right of way, according to plans and specifications approved by the commission and within such time as the commission may allow.

Section 3. The commission shall have power to relocate the highways and to abolish existing crossings and to establish new crossings; and the portions of the highway discontinued by the abolishment or relocation of the crossing shall cease to be a public highway and the relocated highway shall be substituted therefor and the commission shall have power by their orders to provide how these things shall be accomplished.

Section 4. In determining whether an existing grade crossing shall be abolished or whether an overhead crossing or an underpass shall be built, the commission shall take into consideration the amount of travel at such crossing, the location, the surrounding topography, objects and circumstances, the distance trains can be seen from such crossing, the existence of other crossings, the frequency of the passage of trains, and the ability of the railroad company and the county in question to pay the expense required. It shall also take into consideration the amount expended or required to be expended by the railroad company in question in the elimination of other grade crossings and the erection of overhead bridges and underpasses, so as not to put any

undue burden on the railroad company at any particular period.

Section 4. Wherever a crossing is used by a street railway company or interurban railway company it shall also be a party to the proceedings before the commission and shall be required to pay under the order of the commission, such portion of the expense as shall by the commission be deemed to be just; and if it shall not voluntarily pay the portion of the expense assessed against it by the commission, it shall be compelled to do so; and the Railroad Commission shall have the power to issue execution therefor, which shall have the same force and effect as other executions based upon judgments of Courts of competent jurisdiction and may be enforced in the same manner and shall bear interest from the date of the order of said commission.

Section 5. When the work required by the commission in the erection of the overhead crossing or underpass, as the case may be, shall have been completed by the railroad company, the railroad company shall submit to the commission a statement of the amounts expended by it in the doing of the work, and the commission, after giving notice to the county and to the street railway company or interurban company, if any involved, shall after assessing the portion to be paid by such street railway or interurban railway company, pass an order requiring the county in question to pay one-half of the remainder and the county in question shall pay the same. If the county authorities fail voluntarily to pay the same, the Courts shall have the power, by manda-

mus or other appropriate remedy, to compel them to do so. The commission is also authorized to issue to the railroad company a certificate or certificates, either in a lump sum or divided into such portions as the railroad company may request, showing the amount due to it by said county and such certificates shall be received by the tax-collector of said county at face value toward the payment of any taxes due by said railroad company to said county

Section 6. If a railroad company fails or refuses to build an overhead bridge or underpass under an order passed in pursuance of the provisions of this Act, the commission shall, on application of the county authorities of the county involved, have power to pass an order allowing said county authorities to proceed to build the same; and upon the completion of the same the county authorities shall present a statement of the cost of the same to the Railroad Commission and the commission, after giving notice to the railroad company, shall pass an order that the company shall pay said county one-half of the costs of building said overhead bridge or underpass (after deducting any sum assessed against any street railway or interurban railway company under the provisions of this Act). If said railroad company shall fail voluntarily to pay within thirty days after the passage of such order the amount so assessed against it by said Railroad Commission, the county authorities of the county in question shall have jurisdiction and power to issue an execution against said railroad company by the order of said Railroad Commission, and said execution shall have the same force and effect as other executions based

upon judgments of Courts of competent jurisdiction in this State and may be enforced in the same manner as now provided for by law, and shall bear interest from the date of the completion of the work.

Section 7 After an overhead crossing is built, the duty of maintaining the same and the approaches thereto, so far as located upon the right of way of said railroad company, shall be upon the railroad company, and they may be compelled to maintain the same in good order by orders of the Railroad Commission. In the case of underpasses, the railroad company shall have the duty of maintaining the overhead structure on which its tracks are located and the abutments and supports thereof, and the county authorities shall have the duty of maintaining the highway underneath and the drainage connected therewith.

Section 8. In case that the tracks of two or more independent railroad companies cross at grade the same highway at or near the same point, application may be made against both railroad companies jointly and simultaneously, and the procedure thereupon shall be in general conformity, as far as may be, to the procedure in case that a single railroad company is involved, and in that event the commission shall have jurisdiction to decide and to order what portion of that half of the cost which would be assessed against the single railroad company in the event a single railroad company were involved, shall be divided between the two or more railroad companies involved.

Section 9. The provisions of this Act shall apply to highways and streets located within the limits

of municipal corporations, except that in the event of highways and streets located within municipal corporations, either the county or the municipal authorities may make the application to the commission, and in the event the municipal authorities alone apply, then wherever the word "county" or the phrase "county authorities" is used in this Act, it shall be held and construed to mean the municipality involved and its governing authorities.

Section 10. The county authorities of the various counties of this State and the municipal authorities of the various municipal corporations of this State are given power and authority to enter into voluntary contracts and agreements with the railroad companies, including interurban and street railway companies, for the abolishment of existing grade crossings and for the creation of overhead bridges and underpasses and for a voluntary division among themselves of the costs of the same, and upon such terms and conditions as shall be voluntarily agreed on among themselves. The costs incurred by the railroads and counties in and by virtue of such voluntary agreements may be taken into consideration by the Railroad Commission in passing on applications made for the establishment of other crossings or for the building of other overhead passages or underpasses.

Section 11. This bill shall be effective October 1, 1920.

Section 12. All laws and parts of laws in conflict herewith are repealed.

Mr. Rabun, of 9th District, moved that when the Senate adjourn today it stand adjourned until this afternoon at 3 o'clock, Central time, and the motion prevailed.

The following communication was read for the information of the Senate:

TO THE GENERAL ASSEMBLY OF THE
STATE OF GEORGIA.

Session of 1920.

Under and by virtue of Joint House Resolution 146, directing an investigation of the office of the State Veterinarian, your Committee begs to submit the following report:

That the State Veterinarian paid on his private sales of commercial serum, virus, and syringes, from the funds of the State, without authority of law, express charges in the sum of \$1,864.76, in receiving and disbursing serum, virus and syringes from January 1, 1917 to August 1, 1920.

Under the law the whole time of the Veterinarian is required, and one of his duties, by himself and his office force, is to distribute hog cholera serum and virus. It appears from the evidence that the sales of commercial articles named, from January 1, 1917, to August 1, 1920, amounted to:

State College serum and virus	.	.\$ 34,185.02
Commercial serum and virus		372,157.03
		<hr/>
Total\$406,342.05

It also appears from the evidence of Dr. Bahnsen, State Veterinarian, that his profit on these articles was about \$6,000.00 net. There was other evidence to show that the profit was much larger. The distribution of the articles named was handled by the office force of the State Veterinarian.

For lack of records in the office of the State Veterinarian we are unable to determine the exact amount of profit made in the handling of serum and virus. Tickets showing sales made for the years 1917 to August 1, 1920, are as above stated.

There are no books of account, no files or invoices, no records of checks showing amounts paid for serum and virus.

Under the law the State Veterinarian is not authorized to engage in the private purchase of serum and virus.

Except as herein specified, we find the services of the State Veterinarian to the people of the State have been capable and efficient.

We recommend the appropriation by the Legislature of the sum of \$10,000.00 to be used by the Department of Agriculture as a revolving fund for the purchase and distribution of serum and virus to the people of the State at actual cost.

We recommend that the law creating the office of State Veterinarian be amended so as to have the State Veterinarian appointed by the Commissioner of Agriculture for a term of four years.

It being a physical impossibility for the stenographer, at the present time, to transcribe the evi-

dence submitted to the Committee, we beg to ask that he, Mr. S. N. Titlebaum, be permitted to attach the evidence to the findings in the matter as soon as it may be completed by him.

We recommend that witnesses subpoenaed to appear before the Committee be paid actual railway fare and two dollars per day while in actual attendance upon the Committee, the bills to be approved, when sworn to, by the Secretary of this Committee, the Hon. J. B. Clements.

By authority of the Committee.

FERMOR BARRETT, Chairman Senate Committee.

GREEN B. WILLIAMS, Chairman House Committee.

A RESOLUTION.

Whereas, Since the adjournment of the 1919

session of the Senate, and just before the meeting of the 1920 session, this Body was deprived of one of its ablest and most progressive members in the death of Hon. T. H. Parker, Senator from the 47th District,

Therefore Be It Resolved, That we recognize in our fellow member a gentleman of the highest type; a man of fine physique; a highly cultured gentleman, well versed in literature; a profound lawyer; a ready debater; an eloquent speaker. On account of his splendid attainments he was appointed Chairman of the Committee on Public Roads, and a member of all the leading and important Committees of the Senate. In his service he was a leader; his advice and counsels were sought and followed; his work for good roads was continuous and untiring, and the legislation upon that subject bears the imprint of his genius.

Whilst attending a meeting of the State Democratic Executive Committee in Atlanta, of which he was a commanding and leading member, he contracted illness which resulted in his untimely death, and his spirit has drifted out into the bosom of that great and shadowy ocean, whose bosom heaves and swells with resistless sweep, out into the shoreless sea of time, for into the night go one and all, but God is every, every where, and we are convinced by Holy Writ that in the way of righteousness there is life and in the pathway thereof there is no death, and we have every reason and hope to believe, and sublime faith teaches us that the Senate will again be called to order; that the curtain will rise again,

and that we will answer to our names; that we will be reunited before the great, white throne of God.

Therefore Be It Resolved, That in the death of Senator Parker, we lost our leading member; the State and community, an able and untiring citizen; that public highways, schools and higher education, and all civic improvements a noble, great, tender-hearted and worthy leader.

Be It Further Resolved, That these resolutions be spread upon the Journal of the Senate, and that the Secretary of this Body be instructed and directed to send a certified copy of these resolutions to the family of our deceased brother.

H. H. ELDERS,

J. E. BOWDEN,

GEO. G. GLENN,

Whereas, in that capacity his ability and worth were amply exemplified, and,
